

# Research Track

**Propel your career.** Our student pharmacists collaborate with faculty on both lab-based and clinical research projects ranging from cancer studies to prescription opioid misuse. By participating in research, our graduates are distinguished from their peers when seeking residency or career positions. Students who complete requirements receive “Excellence in Pharmacy Research” notated on their official transcript.

## Eligibility

**Required:** Students must have a GPA of 3.0 or higher to enter and progress in the Research Track. Students are eligible to enter the Research Track after successfully completing 1 semester of the research elective.

## Application

**Required:** Sponsorship by a pharmacy faculty member to serve as research mentor. Electives are offered throughout the year and students register during normal Fall/Spring elective enrollment periods. Must apply no later than end of P3 Spring semester. Scan QR code to apply or visit [bit.ly/ETSUBGCOP\\_CurricularTrack](http://bit.ly/ETSUBGCOP_CurricularTrack).

## Requirements

Complete 8 hours of course work including 6 hours of research electives + a 2 hour Capstone experience (PMIN 6361 or PMSC/PMPR 7300).

## Timeline

P1	Discuss interest in research with individual faculty
P2	<ul style="list-style-type: none"> <li>Enroll in Research I course with faculty mentor for 2 credits</li> <li>Register each subsequent semester for 2 credits in next level research course (II, III, etc.)</li> <li>If desired, students may change faculty mentors without loss of credit toward the Research Track</li> </ul>
P3	<ul style="list-style-type: none"> <li>Continue research coursework to complete at least 6 credit hours</li> <li>Apply for Research Track by P3 Spring semester</li> </ul>
P4	<ul style="list-style-type: none"> <li>Complete PMIN 6361 Capstone Seminar or PMSC/PMPR 7300 longitudinally with faculty mentor</li> </ul>
