

Navigate360: Manual vs. Auto Assignments

A comprehensive guide for how Major and Minor Assignments are managed in Navigate360

1. Major Assignments

- For advisors who are on *Auto Assignments*, if a student changes their major, the advisor assignment will automatically change when the change of major form is processed, no assignment management is needed.
 - If a student changes their major from an advisor with an *Auto Assignment* to a *Manual Assignment*, the *Manual Assignment* advisor will need to add the student to their caseload.
 - *Auto Assignments* cannot be removed unless the student has a change of major.

College	Major / Major Location in Navigate360	Assignment in Navigate360
