[1]Choose three upper-division credits in each category from a list of approved option maintained by the division:

- Professional Communication (3 credits)
- Organizational Environment and Behavior 3 credits)
- Professional Leadership 3 credits)
- Technology in the Professions 3 credits)

[2]Choose one of the above categories as a focal area and select twelve additional credits in that area from a list of approved options maintained by the division.

The prior learning portfolio is an option that allows students in the Bachelor of Applied Science and the Bachelor of Science in Interdisciplinary Studies programs the opportunity to earn credit for college-level learning that has taken place outside the traditional college classroom. In consultation with the advisor, students prepare a prior learning portfolio, which is submitted to

the advisor to appraise form and content. Final approval is made by the appropriate departmental faculty. Credit may be awarded only for prior learning that directly equates with specific ETSU courses.

No more than 25 percent of the degree may be earned through the prior learning portfolio process. In a 120 credit program, this limit is 30 credits. Credit earned through the prior learning portfolio is ungraded and does not impact the student's grade point average. Portfolio credit does not count as ETSU residence credit.
