

Goldlink

Goldlink is ETSU's information management system containing student, faculty, course, advisement and personnel information.

Faculty are encouraged to login to Goldlink <https://goldlink.etsu.edu/cp/home/displaylogin> at the beginning of the semester to become familiar with the system. Your username and password are the same for Email, Goldlink, and D2L (you must activate your email to establish your password before the first time you sign into Goldlink).

Faculty members will utilize Goldlink for the following throughout the term ("Faculty Info" tab):

- Course information - time, location, student roster (including student emails and majors)
- Attendance reporting
- Early Semester Progress Reporting (undergraduate courses only)
- Final Grades

Faculty may also see their personal and pay information under the "My Employee Info" tab.
