

Dissertation Prospectus Approval Form

PhD Degree Program for ECED

This is to certify that the dissertation entitled: _____

_____ was presented and successfully defended by _____ in Early

Childhood Education and was approved by the student's dissertation committee on

_____.
(Date)

Approval/acceptance of the dissertation prospectus requires a favorable vote of a majority of the dissertation advisory committee members; the majority must include not fewer than three members, regardless of the size of the committee. In the event of a conditional approval, the dissertation advisory committee may require the student to reorganize the dissertation design. In the event that the majority of the committee decides that the student has failed the prospectus defense, a reexamination may be recommended. The student will be informed of the committee's decision immediately following the vote. The *form* signifying successful completion of the prospectus will not be submitted until specified conditions (if any) have been met.
