4.2. CAEP Accountability Measures [2024-2025 Academic Year]

EPPs are required to provide data addressing the four CAEP Accountability Measures. These data must be

collected or reported for the 2024-2025 Academic Year (September 1, 2024 - August 31, 2025) and be relevant to the requirements outlined below. Data should be clearly labeled to each of the four CAEP Accountability Measures and made publicly available with explanations that are easily understood by a general audience.

- **Measure 1 (Initial): Completer effectiveness. (R4.1)**
 - Data must address: (a) completer impact in contributing to P-12 student-learning growth AND (b) completer effectiveness in applying professional knowledge, skills, and dispositions.
- **Measure 2 (Initial and Advanced): Satisfaction of employers and stakeholder involvement. (R4.2, R5.3, RA4.1)**
 - Data provided should be collected on employers' satisfaction with program completers.
- **Measure 3 (Initial and Advanced): Candidate competency at completion. (R3.3)**
 - Data provided should relate to measures the EPP is using to determine if candidates are meeting program expectations and ready to be recommended for licensure. (E.g.: EPP's Title II report, data that reflect the ability of EPP candidates to meet licensing and state requirements or other measures the EPP uses to determine candidate competency at completion.)
- **Measure 4 (Initial and Advanced): Ability of completers to be hired (in positions for which they have prepared).**
 - Data provided may come from various sources, including state or EPP collected data related to completers' employment in teaching positions for which they were prepared.

4.2.1. URL Link for EPP's Data Display of CAEP Accountability Measures - Initial-Licensure Level

Section 5: Areas for Improvement and/or Stipulations

Section 5: Areas for Improvement and/or Stipulations

Summarize EPP activities and the outcomes of those activities as they relate to correcting the areas cited in the last Accreditation Action/Decision Report. The EPP will continue to report its action and progress on addressing its AFI(s) and/or stipulations until the EPP's next CAEP Accreditation Site Review.

To write your summary, please click the edit button next to each AFI/stipulation to edit the AFI/stipulation. Once there, please provide narrative in the "2026 Annual Accreditation Report Summary/Narrative and Supporting Documents" box at the bottom of the page.

If you do not have any AFIs or stipulations listed, please mark this section complete.

Section 6. EPP's Continuous Improvement & Progress on (advanced level) Phase-in Plans and (initial-licensure level) Transition Plans

Section 6. EPP's Continuous Improvement & Progress on (advanced level) Phase-in Plans and (initial-licensure level) Transition Plans

6.1. Summarize any data-driven EPP-wide or programmatic modifications, innovations, or changes planned, worked on, or completed in the last academic year.

This is an opportunity to share targeted continuous improvement efforts your EPP is proud of. Focus on one to two major efforts the EPP made and the relationship among data examined, changes, progress with any Transition Plans (initial-licensure level) and/or Phase-in Plans (advanced level), and studying the results of those changes.

The state of Tennessee has shifted away from the edTPA and towards an approved observation model system that requires candidates to be observed teaching four times during their clinical experience. ETSU's primary observation model is the TEAM (Tennessee Educator Acceleration Model) observation process that is adopted by the majority of local education agencies (LEA) that we work with. TEAM observers must be certified, which has been required of our university supervisors for years. Our LEA partners report in our ETSU/LEA Network meetings that because ETSU uses the TEAM with our teacher candidates, our graduates are ready and prepared when administrators come to observe them with the TEAM. There are some major shifts in our use of the TEAM given the state's approved observation process in place of the edTPA. First, the TEAM must be completed 4 times across the clinical experience. Implementation requires pre-conference, observation, self-evaluation and post-conference steps. This has been a major lift for our supervisors given the amount of time observations now

require especially in a traditional 15-week student teaching model. If a student is completing 15-week student teaching, four observations must be integrated into that time period. Snow and testing periods have made that really challenging. If a student is completing a year-long internship (a minimum of 100 full days across the year), the observations using TEAM can be spaced out across the year. Although it is state requirement, our institution and our district partners are questioning how beneficial it is to include four TEAM observations in one semester, 15-week period. Our faculty and administration have begun planning for increased internship (100 days across the year) clinical practice pathways so that our observations can be more naturally dispersed across the year and our teacher candidates can demonstrate opportunities to showcase growth prior to preparing for the next observation. Across the year as we have implemented this intensive observation model, we have built in additional supports for university supervisors and listened to feedback on ways we can shift our processes to be more beneficial for all.

Two of our advanced programs, School Librarianship and Reading Specialist, have been engaging in work with our school district partners and other initial licensure programs to modify our institution's lesson plan template and rubric. In Tennessee, many of our district partners and our state department of education have been talking more and more about lesson preparation versus lesson planning. We have been engaged in collaborative efforts to think about how this mindset impacts all of our programs and our lesson plan key assessment. While we have not finalized this work, we will end our Spring semester with a Lesson Planning/Preparation Work Session to take all of the feedback we have received from partners to modify our planning template and rubric for pilot in the Fall. We feels confident that we can develop a system that works for both planning and preparation with high quality instructional materials and beyond.
