The ETSU Office of Continuing Medical Education is excited to announce that we will be implementing a new online CME management system on March 1, 2018. To ensure you maintain an accurate record of your CME credits earned prior to March 1, you will need to download and save your transcript from the current system. Credits earned prior to March 1, 2018 will not transfer into the new system, and we don't want you to lose these valuable credits.

The good news is that we will walk you through the process every step of the way, via detailed email and online instructions. We appreciate your patience and assistance through the upcoming transition. Please be sure to watch for our emails!
