

Medical Student Education Committee - MSEC

The Medical Student Education Committee of the Quillen College of Medicine met for its Annual Meeting with Course and Clerkship Directors on Tuesday, June 13, 2017, at 3:30 pm in the Nancy B. Stanton Auditorium - Stanton-Gerber Hall, Building 178.

Annual Meeting Attendance

Patti Amadio, AcademicAffairs
Eric Beaumont, BiomedicalSciences
Martha Bird, Psychiatry
Earl Brown, Pathology
Lorena Burton, AcademicAffairs
Michelle Duffourc, BiomedicalSciences
Tom Ecay, Biomedical Sciences
Russell Hayman, BiomedicalSciences
Joe Florence, Rural Track
Stephen A. Geraci, InternalMedicine
Jennifer Gibson, Pediatrics
Luis Isaza, VAMC
Theresa Lura, AcademicAffairs
Merry Miller, Psychiatry
David Johnson, Biomedical Sciences
Ramsey McGowen, AcademicAffairs
Jason Moore, Family Medicine
Paul Monaco, BiomedicalScience
Jerry Mullersman, Pathology
Kenneth Olive, AcademicAffairs
Cathy Peeples, Academic Affairs
Mitch Robinson, Biomedical Sciences
Robert Schoborg, BiomedicalSciences
Rachel Walden, LearningResources

Welcome

Dr. McGowen called the Annual Meeting to order at 3:30 pm and presented the following agenda for the meeting.

1. Overview of MSEC Activities and LCME Timeline

Dr. McGowen presented a Power Point presentation of the MSEC curriculum review and planned implementations beginning with the 2017-2018 academic year and running through 2019-2020. It was noted that our upcoming academic year (2017-2018) will be our “year of record” for all documentation required for the LCME visit in 2019 (preparation of our Self-Study will begin in spring 2018).

Dr. McGowen asked for subcommittee participation from those in attendance. A sign-up sheet was provided for interested faculty.

2. Activity 1: Video and Small Group Discussion

Dr. McGowen provided a brief update of the recently held faculty development sessions and introduced a faculty development session for today’s annual meeting titled: *Teaching to Facilitate Clinical Problem Solving*. Discussion led by Dr. McGowen followed the video session. The session presented today will count as a faculty development session for all in attendance.

3. Activity 2: Faculty Synergy

Those in attendance were asked to break out into groups based on their primarily teaching role of either basic science or clinical nature. The goal was to facilitate communication between basic science and clinical faculty that would identify common interest and areas of potential collaboration and sharing of ideas, opportunities and needs.

4. Wrap Up

The meeting was adjourned at 5:10 pm.
