

Medical Student Education Committee - MSEC

The Medical Student Education Committee of the Quillen College of Medicine met for its Annual Meeting with Course and Clerkship Directors on Tuesday, June 14, 2016, at 3:30 pm in the Nancy B. Stanton Auditorium - Stanton-Gerber Hall, Building 178.

Annual Meeting Attendance

Caroline Abercrombie, Academic Affairs
Robert Acuff, Surgery
Patti Amadio, Academic Affairs
Eric Beaumont, Biomedical Sciences
Reid Blackwelder, Family Medicine
Brock Blankenship, Academic Affairs
Martha Bird, Psychiatry
Lorena Burton, Academic Affairs
Brian Cross, Pharmacy
David Cooper, M2
Michelle Duffourc, Biomedical Sciences
Tom Ecay, Biomedical Sciences
Jessica English, MS4
Jennifer Hall, Biomedical Sciences
Russell Hayman, Biomedical Sciences
Cindy Lybrand, Academic Affairs
Theresa Lura, Academic Affairs

Stephen A. Geraci, Internal Medicine
Jennifer Gibson, Pediatrics
Theodore Hagg, Biomedical Sciences
David Johnson, Biomedical Sciences
Tom Kwasigroch, Biomedical Sciences
Demetrio Macariola, Pediatrics
Ramsey McGowen, Academic Affairs
Tamara McKenzie, Surgery
Jason Moore, Family Medicine
Paul Monaco, Biomedical Science
Jerry Mullersman, Pathology
Kenneth Olive, Academic Affairs
Antonio Rusinol, Biomedical Sciences
Robert Schoborg, Biomedical Sciences
Rupal Shah, Internal Medicine
Sharon Smith, Academic Affairs
Rachel Walden, Learning Resources

Shading denotes or references MSEC ACTION ITEMS

Dr. McGowen called the Annual Meeting to order at 3:30 pm.

1. Announcement of 2016-2017 MSEC Meeting Dates

A listing of the 2016-2017 MSEC meetings dates, to include Retreats and next Annual Meeting were provided to those in attendance. Dr. McGowen reviewed the purpose of the annual meetings, including keeping all course and clerkship directors up-to-date on curriculum developments, and obtaining feedback between and across those involved in the curriculum, noting that this year focuses on the periodic and comprehensive review of curriculum processes.

MSEC meeting dates are found in the Annual Meeting Documents and at the end of the minutes.

2. Review and Follow Up MSEC Annual Meeting of June 2015 to Present

Dr. McGowen reviewed MSEC curriculum review processes over the past year and what has yet to be completed. Recommended changes for the curriculum are projected to be implemented in the 2017-2018 academic year (with the need for flexibility acknowledged). This is the same year that the College's LCME self-study report and Data Collection Instrument (DCI) will be based on.

Three working groups were organized at the start of the 2015-2016 academic year, following last year's annual meeting input. The working groups responded to sets of questions that covered content, sequencing, organization, integration and assessment of the present curriculum. Their final reports were presented to MSEC in February 2016.

MSEC identified priority actions from the working groups' reports and included Institutional Educational Objectives needing attention, into one priority action list. Three implementation groups (*Preclerkship, Clinical and Doctoring*) have been identified and will work to develop a plan for acting on these recommendations for curriculum changes based on the priority action list groupings. Their reports will be due to MSEC in the February 2017. Today's annual meeting will allow for broad input by course and clerkship directors to the implementation group assignments by identifying opportunities, challenges and resources for the implementation groups to consider as they develop plans.

3. Breakout Session

Those attending the meeting were divided into breakout groups to consider the implementation group action items for which they will develop recommendations and plans. Instructions for the breakout session were given and three groups of two subgroups (A & B) each separated with a list of priority action items for the Implementation groups. Each group was given an initial 20 minutes to address opportunities, challenges, and resources for each of the assigned subgroup priority action list items. In the following 30 minutes each subgroup rotated so that they might review and add information on the previous subgroups' input.

After the breakout groups completed their discussion of the implementation groups' action items, all groups came back together for a large group discussion. A spokesperson from each group commented on the opportunities, challenges, and resources identified by the group. All input has since been compiled and will be shared with the implementation groups for review, consideration and follow-up in their reports to MSEC.

The Priority Action List with the Annual Meeting input is provided in the Annual Meeting Documents.

The meeting was adjourned at 5:30 pm.
