A Message from Dr. Keith Johnson, Vice President for Equity and Inclusion

“A Time to Honor”

Dear Friends,

I hope this message finds you well. As November begins, we have the privilege of celebrating National Native American Heritage Month, a time to honor and recognize the rich and diverse cultures, traditions, and contributions of Native Americans to our society.

National Native American Heritage Month provides an opportunity for us to reflect on the invaluable heritage of the indigenous peoples of this land, as well as to acknowledge their enduring resilience, wisdom, and strength. It is a time to learn, appreciate, and promote awareness of the unique histories and traditions that have shaped the many tribes and nations across North America.

Continued ~ Message from Dr. Keith Johnson

I grew up in a small rural area in eastern North Carolina in the town of Hollister. Though the population was less than one thousand, it had a thriving Native American population that made up for more than 55 percent of the community. As a child, I can remember during the summers when the Haliwa-Saponi Tribe would have a summer pow wow. It was so exciting to see so many people visit the area for such a large event. It was truly a celebration time. I can recall all of the artifacts that were for sale, Native Americans dancing, art and drum contests, and the like.

During this month, I encourage you to take part in various educational and cultural events that celebrate Native American heritage, such as attending talks, art exhibitions, or performances, and engaging with the vibrant traditions and stories passed down through generations.

Additionally, it is an opportunity for us to advocate for the rights and well-being of Native American communities. Many indigenous peoples face ongoing challenges, including preserving their cultural heritage, addressing social and economic disparities, and advocating for environmental conservation. Supporting their efforts and engaging in dialogue can make a meaningful difference.

As we mark Native American Heritage Month, let us honor the past, celebrate the present, and work toward a more inclusive and equitable future for all. We can do this by recognizing and respecting the indigenous communities in our region, listening to their voices, and amplifying their stories.

Your participation and support are essential in ensuring that these rich cultures and histories continue to thrive and be appreciated. It is important that the university continues to press onward with transforming the campus into an environment that lives out the values of the university which include the following:

- PEOPLE come first, are treated with dignity and respect, and are encouraged to achieve their full potential;
- RELATIONSHIPS are built on honesty, integrity, and trust;
- DIVERSITY of people and thought is respected;
- EXCELLENCE is achieved through teamwork, leadership, creativity, and a strong work ethic;
- EFFICIENCY is achieved through wise use of human and financial resources; and
- COMMITMENT to intellectual achievement is embraced.

Sincerely,

Dr. Keith Johnson

In honor of Native American History month, we'd like to share an artifact #fromourcollection.

Within Two Worlds, 1995
Melanie Yazzie
screenprint

This screenprint depicts the head of a young native girl side by side with her lower jaw, mouth open with the words "Indian girl" inside. Beneath that is a sketch of the popular Raggedy Ann doll and a photo of the artist, presumably with a relative, overlaid with an opaque map of Arizona. Along the bottom is the quote "How can you be going in the right direction when you return to the place where we started from? Can't you see, that we might just as well have stood still and saved you all that running?"

Melanie Yazzie, the artist, works in printmaking, sculpture, mixed media, and painting. Yazzie uses her lived experiences as a member of the Navajo Nation, more properly referred to as the Diné Nation, to share her cultural heritage and to bring attention to the social and political issues that directly impact indigenous peoples.

It is likely that this screenprint explores Yazzie's struggle with her cultural heritage growing up in a world that has not been kind or respectful to indigenous peoples.

Nate Tadesse, New Assistant Director for Access and Success at the Mary V. Jordan Multicultural Center

The Mary V. Jordan Multicultural Center Selects an Assistant Director for Access and Success

By Alyssa Morel & Kevin L. Brooks, Ph.D.

Nathnael "Nate" Tadesse accepts new role as Assistant Director of the Mary V. Jordan Multicultural Center and Student Access and Success. For the past seven years, Tadesse has been a champion for students' academic and leadership development while serving as mentoring coordinator for the MCC. Prior to his role as mentoring coordinator, he served as a program assistant for the Office of Multicultural Affairs. He looks forward to strengthening the access and success programs and supporting student belongingness and engagement.

Tadesse strives to help students develop their knowledge and skills and better understand how their curricular and co-curricular experiences connect intellectually, culturally and occupationally. "My interests have been and will always be education and the impacts on students and their futures," he stated. "Assisting diverse students to actualize their potential motivates and inspires me every day."

A former middle school history teacher, he emphasizes the importance of cultural representation and understanding when working with students and colleagues from diverse backgrounds. His goals for the MCC and the Pride Center are to collaborate with the campus community to advocate for equitable students access and success. "My overall goals for the centers are to provide educational training and resources to better expand the knowledge and understanding of topics related to cultural diversity and the LGBTQ+ community." Tadesse added, "I want both centers to be the hub for the campus and the region in empowering students, staff, faculty, and allies with seamless affirmation, program celebrations, and support services."

The most enjoyable part of working in the MCC for Tadesse is the presence of friendship, community, and the team's upmost priority of student support and success. "Witnessing students' persistence, collaborations and outcomes of their programs and activities is the most rewarding part of my role in the Multicultural Center," he asserted.
