JASON E. MUMPOWER

Comptroller

March 18, 2021

The Honorable Bill Lee, Governor Members of the General Assembly Dr. Brian Noland, President

Ladies and Gentlemen:

Transmitted herewith is the financial and compliance audit of East Tennessee State University, an institution of the State University and Community College System of Tennessee, for the year ended June 30, 2020. You will note from the independent auditor's report that unmodified opinions were given on the fairness of the presentation of the financial statements.

Consideration of internal control over financial reporting and tests of compliance disclosed certain deficiencies, which are detailed in the Finding and Recommendation section of this report. The university's management has responded to the audit finding; the response is included following the finding. The Division of State Audit will follow up the audit to examine the application of the procedures instituted because of the audit finding.

Sincerely,

Katherine J. Stickel, CPA, CGFM, Director

Division of State Audit

Mater J. Stickel

Opinions on the Financial Statements

The opinions on the financial statements are unmodified.

Audit Finding

East Tennessee State University Did Not Have Adequate Internal Controls in Three Areas The university did not design and monitor effective internal controls in three areas. For two of the areas, we found internal control deficiencies related to one of the university's systems that were in violation of university policies or industry-accepted best practices. We also observed another condition where adequate written internal controls were not in place. The details of this finding are confidential pursuant to Section 10-7-504(i), *Tennessee Code Annotated* (page 73).

Independent Auditor's Report

The Honorable Bill Lee, Governor Members of the General Assembly Dr. Brian Noland, President

Report on the Financial Statements

We have audited the accompanying financial statements of East Tennessee State University, an institution of the State University and Community College System of Tennessee, which is a component unit of the State of Tennessee, and its discretely presented component units as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the East Tennessee State University Foundation and the Medical Education Assistance Corporation, discretely presented component units. Those statements were audited by other auditors, whose reports have been furnished to us. Our opinion, insofar as it relates to the amounts included for these institutions, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment,

including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the university's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of East Tennessee State University and its discretely presented component units as of June 30, 2020; and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note 1, the financial statements of East Tennessee State University, an institution of the State University and Community College System of Tennessee, are intended to present the financial position, the changes in financial position, and the cash flows of only East Tennessee State University. They do not purport to, and do not, present fairly the financial position of the State University and Community College System of Tennessee, as of June 30, 2020, and the changes in financial position and cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

As discussed in Note 21, the financial statements of East Tennessee State University Foundation, a discretely presented component unit of East Tennessee State University, include investments valued at \$5,680,548.70 (5.1% of net position of the foundation), whose fair values have been estimated by management in the absence of readily determinable fair values. Management's estimates are based on information provided by the fund managers. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6 through 16; the schedule of East Tennessee State University's proportionate share of the net pension liability – Closed State and Higher Education Employee Pension Plan within TCRS on page 62; the schedule of East Tennessee State University's proportionate share of the net pension asset – State and Higher Education Employee

Retirement Plan within TCRS on page 63; the schedule of East Tennessee State University's contributions – Closed State and Higher Education Employee Pension Plan within TCRS on page 64; the schedule of East Tennessee State University's contributions – State and Higher Education Employee Retirement Plan within TCRS on page 65; the schedule of East Tennessee State University's proportionate share of the collective total/net OPEB liability – Closed State Employee Group OPEB Plan on page 66; the schedule of East Tennessee State University's contributions -Closed State Employee Group OPEB Plan on page 67; and the schedule of East Tennessee State University's proportionate share of the collective total OPEB liability – Closed Tennessee OPEB Plan on page 68 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during the audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the university's basic financial statements. The supplementary schedules of cash flows for both the East Tennessee State University Foundation and the Medical Education Assistance Corporation on pages 69 and 70 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary schedules of cash flows for both the component units are the responsibility of the university's management and were derived from, and relate directly to, the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit and the procedures performed as described above, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2020, on our consideration of the university's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the

scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the university's internal control over financial reporting and compliance.

Katherine J. Stickel, CPA, CGFM, Director

Division of State Audit December 11, 2020

EAST TENNESSEE STATE UNIVERSITY Management's Discussion and Analysis

Introduction

This section of East Tennessee State University's annual financial report presents a discussion and analysis of the financial performance of the university during the fiscal year ended June 30, 2020, with comparative information presented for the fiscal year ended June 30, 2019. This discussion has been prepared by management along with the financial statements and related note disclosures and should be read in conjunction with the independent auditor's report, the audited financial statements, and the notes to the financial statements. The financial statements, notes, and this discussion are the responsibility of management.

The university has two discretely presented component units, the East Tennessee State University Foundation and the Medical Education Assistance Corporation (MEAC). More detailed information about the university's component units is presented in Note 21 to the financial statements. This discussion and analysis focuses on the university and does not include the foundation or MEAC.

Overview of the Financial Statements

The financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB), which establishes standards for external financial reporting for public colleges and universities. The financial statements are presented on a consolidated basis to focus on the university as a whole. The full scope of the university's activities is considered to be a single business-type activity, and accordingly, is reported within a single column in the basic financial statements.

The university's financial report includes the statement of net position; the statement of revenues, expenses, and changes in net position; and the statement of cash flows. Notes to the financial statements are also presented to provide additional information that is essential to a full understanding of the financial statements.

The Statement of Net Position

The statement of net position is a point-in-time financial statement. The statement of net position presents the financial position of the university at the end of the fiscal year. To aid the reader in determining the university's ability to meet immediate and future obligations, the statement includes all assets, liabilities, deferred outflows/inflows of resources, and net position of the university and segregates the assets and liabilities into current and noncurrent components. Current assets are those that are available to satisfy current liabilities, inclusive of assets that will be converted to cash within one year. Current liabilities are those that will be paid within one year. The statement of net position is prepared under the accrual basis of accounting; assets and liabilities are recognized when goods or services are provided or received despite when cash is actually exchanged.

From the data presented, readers of the statement are able to determine the assets available to continue the operations of the university. They are also able to determine how much the university owes vendors, lenders, and others. Net position represents the difference between the university's assets and liabilities, along with the difference between deferred outflows and deferred inflows of resources, and is one indicator of the university's current financial condition.

The statement of net position also indicates the availability of net position for expenditure by the university. Net position is divided into three major categories. The first category, net investment in capital assets, represents the university's total investment in property, plant, and equipment, net of outstanding debt obligations and deferred outflows/inflows of resources related to these capital assets. To the extent debt or deferred inflows of resources have been incurred but not yet expended for capital assets, such amounts are not included. The next category is restricted net position, which is subdivided into two categories, nonexpendable and expendable. Nonexpendable restricted net position includes endowment and similar resources whose use is limited by donors or other outside sources and, as a condition of the gift, the principal is to be maintained in perpetuity. Expendable restricted net position is available for expenditure by the university but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the resources. The final category is unrestricted net position. Unrestricted net position is available to the university for any lawful purpose of the university.

The following table summarizes the university's assets, liabilities, deferred outflows/inflows of resources, and net position at June 30, 2020, and June 30, 2019.

Summary of Net Position (in thousands of dollars)

(in thousands of dollar	(S)	
	<u>2020</u>	<u> 2019</u>
Assets:		
Current assets	\$ 59,607	\$ 47,045
Capital assets, net	402,159	374,719
Other assets	161,836	160,645
Total assets	623,602	582,409
Deferred outflows of resources:		
Deferred amount on debt refunding	5,030	5,579
Deferred outflows related to pensions	13,987	18,404
Deferred outflows related to OPEB	6,030	5,843
Total deferred outflows of resources	25,047	29,826
Liabilities:		
Current liabilities	54,009	51,527
Noncurrent liabilities	237,784	241,370
Total liabilities	291,793	292,897

Deferred inflows of resources:		
Deferred amount on debt refunding	75	81
Deferred inflows related to pensions	4,954	1,309
Deferred inflows related to OPEB	9,934	2,067
Total deferred inflows of resources	14,963	3,457
Net position:		
Net investment in capital assets	232,873	216,248
Restricted – expendable	25,044	28,655
Unrestricted	83,976	70,978
Total net position	\$341,893	\$315,881

- ◆ Current cash reserves increased \$8.9 million from 2019 to 2020. Current accounts receivable also increased a total of \$3 million during the same time period. The increase in accounts receivable includes new receivables from CARES Act Funding of \$3.7 million. Amounts due from component units also increased \$956 thousand. The increases resulted in a total increase of current assets of 27% from 2019 to 2020.
- ♦ Capital assets, net of depreciation, increased primarily due to the continued construction of the Martin Fine Arts Center, as well as the renovation of D.P. Culp Center. These projects will be completed in fall 2020.
- Deferred outflows of resources decreased in 2020 mainly as a result of a decrease in the university's proportionate share of deferred outflows of resources related to the Closed State and Higher Education Pension Plan within TCRS.
- ♦ As to current liabilities, during 2020, unearned revenue increased by \$2.6 million. The largest increase in unearned revenue was in grants and contracts, which increased by \$1.6 million. The current portion of long-term liabilities also increased by \$1.8 million due to the bonding of three revolving credit obligations, funding the Martin Fine Arts Center, the D.P. Culp Center, and the Millennium Center. These increases in bonded indebtedness resulted in an increase in current liabilities for 2020.
- ♦ As to noncurrent liabilities, during 2020, the university's noncurrent proportionate share of the OPEB liability decreased by \$7.1 million. This is due to the transition of the Closed State Employee Group OPEB Plan to a prefunded arrangement where assets were deposited and accumulated in a qualifying trust during the year ended June 30, 2019. Also decreasing by \$4.9 million in 2020 was the university's portion of the net pension liability under the Closed State and Higher Education Employee Pension Plan within TCRS. Amounts due to grantors decreased by \$1.4 million because the university returned \$1.4 million of Perkins Loan funds to the U.S. Department of Education. Noncurrent long-term liabilities increased by \$7.6 million due to increases in TSSBA debt due to ongoing construction projects, including the Martin Fine Arts Center and the D.P. Culp Center. Noncurrent liabilities experienced an overall decrease of \$3.6 million from 2019 to 2020.

- ◆ Deferred inflows of resources increased in 2020 as a result of an increase in the university's proportionate share of deferred inflows of resources related to pensions and deferred inflows of resources related to other postemployment benefits.
- ♦ Net investment in capital assets increased due to ongoing construction projects including the Martin Fine Arts Center and D.P. Culp Center.
- Restricted expendable net position decreased mainly due to a decrease in amounts restricted for capital projects. An \$8 million gift received for the construction of the Martin Fine Arts Center in 2019 was expended during the 2020 fiscal year.
- Unrestricted net assets increased due to planned increases in renewal and replacement funds in anticipation of future projects.

The Statement of Revenues, Expenses, and Changes in Net Position

The statement of revenues, expenses, and changes in net position presents the results of operations for the fiscal year. Revenues and expenses are recognized when earned or incurred, regardless of when cash is received. The statement indicates whether the university's financial condition has improved or deteriorated during the fiscal year. The statement presents the revenues received by the university, both operating and nonoperating; the expenses paid by the university, both operating and nonoperating; and any other revenues, expenses, gains, or losses received or spent by the university.

Generally speaking, operating revenues are received for providing goods and services to the various customers and constituencies of the university. Operating expenses are those expenses paid to acquire or produce the goods and services provided in return for the operating revenues, and to carry out the mission of the university. Nonoperating revenues are revenues received for which goods and services are not provided directly to the payor. Although East Tennessee State University is dependent upon state appropriations and gifts to fund educational and general operations, under GASB standards these funding sources are reported as nonoperating revenues, as is investment income. As a result, the university has historically reported an excess of operating expenses over operating revenues, resulting in an operating loss. Therefore, the "increase in net position" is more indicative of overall financial results for the year.

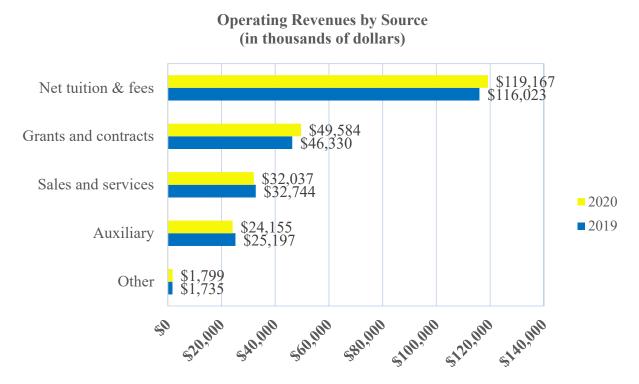

A summary of the university's revenues, expenses, and changes in net position for the years ended June 30, 2020, and June 30, 2019, follows.

Summary of Revenues, Expenses, and Changes in Net Position (in thousands of dollars)

	<u>2020</u>	<u>2019</u>
Operating revenues	\$ 226,742	\$ 222,029
Operating expenses	395,435	378,390
Operating loss	(168,693)	(156,361)
Nonoperating revenues and expenses	180,450	167,241
Income before other revenues, expenses,		_
gains, or losses	11,757	10,880
Other revenues, expenses, gains, or losses	14,255	37,422
Increase in net position	26,012	48,302
Net position at beginning of year	315,881	267,579
Net position at end of year	\$ 341,893	\$ 315,881

Operating Revenues

The following summarizes the operating revenues by source that were used to fund operating activities for the last two fiscal years:

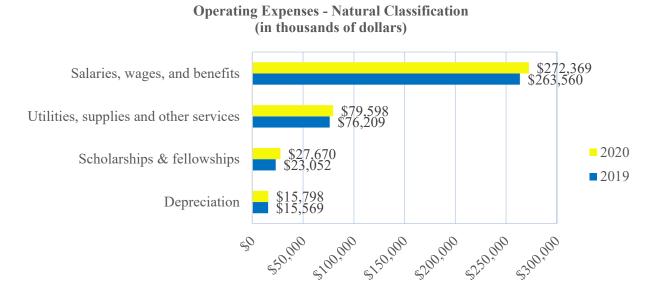

Comparison of Fiscal Year 2020 to Fiscal Year 2019

• Tuition and fees increased in 2020 due to an average 2.3% maintenance and mandatory fee increase and increases in other non-mandatory fees, less discounts for tuition and fees offered to eligible students and reported as a scholarship allowance in the financial statements.

- Grants and contracts increased mainly due to an increase in nongovernmental grants and contracts. During fiscal year 2020, the university received several new private grants, including two grants totaling \$3.2 million.
- ♦ As to auxiliary revenues, the residence halls experienced a decrease in occupancy during fiscal year 2020. This decrease, along with the shutdown of residence halls during the months of May and June due to the COVID pandemic, resulted in a decrease of residential life revenues of \$1.1 million. The bookstore, food service, and wellness facilities also had decreases in revenue in 2020 due to the pandemic.

Operating Expenses

Operating expenses may be reported by nature or function. The university has chosen to report the expenses in their natural classification on the statement of revenues, expenses, and changes in net position and has displayed the functional classification in the notes to the financial statements. The following summarizes the operating expenses by natural classifications for the last two fiscal years:

- ♦ Salaries, wages, and benefits increased in fiscal year 2020 due to a 2.0% across-the-board pay increase, as well as an increase in compensated absences of \$2.2 million.
- Operating expenses increased due to an increase in professional and administrative services, and supplies.
- ♦ Scholarships and fellowships increased by \$4.6 million due largely to the receipt of CARES Act funding received by the university for disbursement to students impacted by COVID-19.

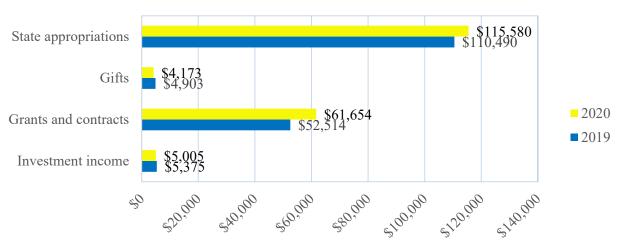

Nonoperating Revenues and Expenses

Certain revenue sources that the university relies on to provide funding for operations, including state noncapital appropriations, certain gifts and grants, and investment income, are defined by the GASB as nonoperating. Nonoperating expenses include capital financing costs and other costs related to capital assets. The following summarizes the university's nonoperating revenues and expenses for the last two fiscal years:

Nonoperating Revenues (Expenses) (in thousands of dollars)

	<u>2020</u>	<u>2019</u>
State appropriations	\$ 115,580	\$ 110,490
Gifts	4,173	4,903
Grants and contracts	61,654	52,514
Investment income	5,005	5,375
Interest on capital asset-related debt	(6,230)	(5,741)
Interest on noncapital debt	(144)	(192)
Bond issuance costs	(296)	(34)
Other nonoperating revenues (expenses)	708	(74)
Total nonoperating revenues (expenses)	\$ 180,450	\$ 167,241

Nonoperating Revenues (Expenses) (in thousands of dollars)

- ♦ State appropriations increased in fiscal year 2020 by 5%. Included is an increase in outcomes funding of \$3.4 million and a 2% salary increase of \$1.3 million.
- ♦ Nonoperating gifts decreased slightly from 2019 to 2020 due to a decrease in gifts from the ETSU Foundation.

- ♦ Nonoperating grants and contracts increased during 2020 due to the receipt of CARES Act funding totaling \$9.1 million.
- ♦ Interest on capital asset-related debt increased due to ongoing construction projects, including the Martin Fine Arts Center and the D.P. Culp Center
- ♦ Other nonoperating revenue increased in 2020, as a result of insurance recoveries from flood damage experienced in the fall of 2019 in Lamb Hall.

Other Revenues

Total other revenues

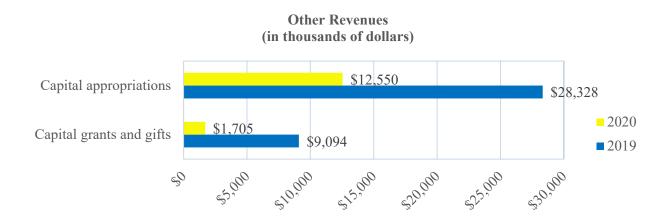

This category is composed of state appropriations for capital purposes and capital grants and gifts. These amounts were as follows for the last two fiscal years:

Other Revenues

(in thousands of dollars	s)	
	<u>2020</u>	<u> 2019</u>
Capital appropriations	\$ 12,550	\$ 28,328
Capital grants and gifts	1,705	9,094

\$ 14,255

\$ 37,422

- ◆ Capital appropriations decreased from 2019 to 2020 due to a decrease in appropriation funded expenditures for capital projects, including \$15.2 million for the Martin Fine Arts Center.
- ◆ The university received capital assets of \$7.5 million, including the Millennium Center and Pedestrian Sky Bridge, which were reported as capital gifts in 2019. Therefore, reported capital grants and gifts decreased in 2020.

Capital Assets and Debt Administration

Capital Assets

East Tennessee State University had \$402 million invested in capital assets, net of accumulated depreciation of \$272 million at June 30, 2020; and \$375 million invested in capital assets, net of accumulated depreciation of \$259 million at June 30, 2019. Depreciation charges totaled \$15.8 million for the year ended June 30, 2020, and \$15.6 million for the year ended June 30, 2019.

Summary of Capital Assets, Net of Depreciation (in thousands of dollars)

	<u>2020</u>	<u>2019</u>
Land	\$ 19,381	\$ 19,381
Land improvements and infrastructure	39,011	42,531
Buildings	237,496	242,643
Equipment	12,178	12,212
Library holdings	300	337
Intangible assets	647	728
Art and historical collections	24	24
Projects in progress	93,122	56,863
Total	\$402,159	\$374,719

◆ Capital assets, net of depreciation, increased primarily from 2019 to 2020 due to ongoing projects, including the Martin Fine Arts Center and the D.P. Culp Center renovation.

At June 30, 2020, outstanding commitments under construction contracts totaled \$50 million for various renovations and repairs of buildings and infrastructure including commitments for the Martin Fine Arts Building, the D.P. Culp renovation, and the Lamb Hall renovation. Future state capital outlay appropriations will fund \$26 million of these costs, including \$17.5 million for the Lamb Hall renovation.

More detailed information about the university's capital assets is presented in Note 6 to the financial statements.

Debt

The university had \$177 and \$168 million in debt outstanding at June 30, 2020, and June 30, 2019, respectively. The table below summarizes these amounts by type of debt instrument.

Schedule of Outstanding Debt (in thousands of dollars)

	<u>2020</u>	<u> 2019</u>
Revolving credit facility	\$	\$ 27,125
Bonds	154,937	124,224
Unamortized bond premiums	21,978	16,270
Lease obligation	146	
Total	\$177,061	\$167,619

The TSSBA has issued bonds with interest rates ranging from 1.77% to 5% due serially to 2048 on behalf of East Tennessee State University. The university is responsible for the debt service of these bonds. The current portion of the \$155 million bonds outstanding at June 30, 2020, is \$8 million.

The ratings on debt issued by the Tennessee State School Bond Authority at June 30, 2020, were as follows:

Fitch	AA+
Moody's Investor Service	Aa1
Standard & Poor's	AA+

More information about the university's long-term liabilities is presented in Note 9 to the financial statements.

Economic Factors That Will Affect the Future

The original state budget as proposed by Governor Lee provided for an increase of \$4.5 million for the university which could be used for salaries and operations, and \$1.1 million for strategic initiatives for the College of Medicine in pediatric services. After the impact of the coronavirus began to be realized as a reduction in state revenues, the Governor reduced these increases in funding. The university retained the \$1.1 million for the pediatric strategic initiatives. The ETSU Board of Trustees at their April 2020 meeting approved a zero percent increase in tuition and fees across all units to hold costs down for students in the next academic year.

Regarding campus operations, in March 2020, the coronavirus (COVID-19) health crisis changed the manner in which the university functioned within a matter of days. In response to the pandemic, the university shifted from a majority on-campus, in-person class setting to a remote learning and work environment. Residential students were encouraged to return home as the university focused on the health and safety of students and employees.

Additionally, federal, state, and local authorities responded to the pandemic by enacting mandates which have resulted in an economic decline. The pandemic continues to impact the financial climate of the university as conversion of courses from in-person to on-line or hybrid results in declines in housing and dining revenues and is expected to impact enrollment for academic year 20-21. In response to the economic downturn created by the pandemic and the uncertainty of state

appropriations for fiscal year 2021, the university encouraged reductions of planned expenditures and budgets for the completion of fiscal year 2020, and also for fiscal year 2021. In April, university departments were asked to suspend travel and to consider delaying or halting hiring activities.

The university established the Strategic Operations Workgroup in May 2020 to provide the university leadership with projected budget scenarios for the fiscal year 2021 budget year. The workgroup recommended a 4.3% budget reduction for academic units, a 5.3% budget reduction for administrative units, and a base budget adjustment for the College of Arts and Sciences. These budget adjustments will be implemented in the October revised budget. The workgroup expects these reductions to be achieved without significantly altering the institution's teaching, research, and service mission.

We are not aware of any other factors, decisions, or conditions that are expected to have a significant impact on the university's financial position or results of operations during the upcoming fiscal year.

The notes to the financial statements are an integral part of this statement.

EAST TENNESSEE STATE UNIVERSITY

Notes to the Financial Statements June 30, 2020

Note 1. Summary of Significant Accounting Policies

Reporting Entity

The university is a part of the State University and Community College System of Tennessee (the system). The Focus on College and University Success Act of 2016 removed the six universities from the governance of the Tennessee Board of Regents, but they remain part of the system. The universities have their own local governing boards that provide governance, approve policies, set tuition and fee rates, and hire presidents. The system had limited oversight responsibilities during the transition period and has continuing oversight responsibilities in the areas of budget approval and institutional debt. This system is a component unit of the State of Tennessee because the state appoints a majority of the system's governing body and provides significant financial support; the system is discretely presented in Tennessee's *Comprehensive Annual Financial Report*. That report is available at https://www.tn.gov/finance/rd-doa/fa-accfin-cafr.html.

The financial statements present only that portion of the system's activities that is attributable to the transactions of East Tennessee State University.

The East Tennessee State University Foundation and the Medical Education Assistance Corporation are considered component units of the university. Although the university does not control the timing or amount of receipts from these organizations, the majority of resources, or income thereon, that these organizations hold and invest are restricted to the activities of the university by the donors. Because these restricted resources held by the foundation and the corporation can only be used by, or for the benefit of, the university, these organizations are considered component units of the university and are discretely presented in the university's financial statements. See Note 21 for more detailed information about the component units and how to obtain their reports.

Basis of Presentation

The university and its component units' financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to governmental colleges and universities engaged in business-type activities as prescribed by the Governmental Accounting Standards Board (GASB).

Basis of Accounting

For financial statement purposes, the university is considered a special-purpose government engaged only in business-type activities. Accordingly, the financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all of the provider's eligibility requirements have been met. All significant internal activity has been eliminated.

The university has classified its revenues and expenses as either operating or nonoperating according to the following criteria: Operating revenues and expenses are those that have the characteristics of exchange transactions. Operating revenues include (1) tuition and fees, net of scholarship discounts and allowances; (2) certain federal, state, local, and private grants and contracts; (3) sales and services of auxiliary enterprises, net of scholarship discounts and allowances; and (4) interest on institutional loans. Operating expenses include (1) salaries and wages; (2) employee benefits; (3) utilities, supplies, and other services; (4) scholarships and fellowships; and (5) depreciation.

Nonoperating revenues and expenses include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other activities that are defined as nonoperating by GASB Statement 9, Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities that Use Proprietary Fund Accounting, and GASB Statement 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, such as state appropriations and investment income.

When both restricted and unrestricted resources are available for use, it is the university's policy to determine which to use first, depending upon existing facts and circumstances.

Inventories

Inventories are valued at the lower of cost or market. Items are maintained on an average cost or first-in, first-out basis.

Compensated Absences

The university's employees accrue annual and sick leave at varying rates, depending on length of service or classification. Some employees also earn compensatory time.

The amount of the liabilities for annual leave and compensatory time and their related benefits are reported in the statement of net position. There is no liability for unpaid accumulated sick leave since the university's policy is to pay this only if the employee is sick or upon death.

Capital Assets

Capital assets, which include property, plant, equipment, library holdings, works of art, historical treasures/collections, and intangible assets, are reported in the statement of net position at historical cost or at acquisition value at date of donation, less accumulated depreciation/amortization. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's useful life are not capitalized.

A capitalization threshold of \$100,000 is used for buildings, and \$50,000 is used for infrastructure. Equipment is capitalized when the unit acquisition cost is \$5,000 or greater. The capitalization threshold for additions and improvements to buildings and land is set at \$50,000. The capitalization threshold for intangible assets is set at \$100,000. The capitalization threshold for art, historical treasures/collections, and similar assets is set at \$5,000.

These assets, with the exception of works of art and historical treasures/collections deemed inexhaustible and land, are depreciated/amortized using the straight-line method over the estimated useful lives, which range from 5 to 60 years.

Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Closed State and Higher Education Employee Pension Plan and the State and Higher Education Employee Retirement Plan in the Tennessee Consolidated Retirement System (TCRS) and additions to/deductions from the plans' fiduciary net positions have been determined on the same basis as they are reported by the TCRS. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Closed State and Higher Education Employee Pension Plan and the State and Higher Education Employee Retirement Plan. Investments are reported at fair value.

Other Postemployment Benefits

For purposes of measuring the net other postemployment benefits (OPEB) liability, as well as deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the Closed Employee Group OPEB Plan and additions to/deductions from the plan's fiduciary net position has been determined on the same basis as it is reported by the State of Tennessee Postemployment Benefits Trust. For this purpose, benefits are recognized when due and payable in accordance with the benefit terms of the Closed Employee Group OPEB Plan. Investments are reported at fair value.

Net Position

The university's net position is classified as follows:

<u>Net investment in capital assets</u> – This represents the university's total investment in capital assets, net of accumulated depreciation and net of outstanding debt obligations and deferred outflows/inflows of resources related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

<u>Nonexpendable restricted net position</u> – Nonexpendable restricted net position consists of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may be expendable or added to principal.

<u>Expendable restricted net position</u> – Expendable restricted net position includes resources that the university is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

<u>Unrestricted net position</u> – Unrestricted net position represents resources derived from student tuition and fees; state appropriations; sales and services of educational departments; sales and services of other activities; and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the university and may be used at the university's discretion to meet current expenses for any purpose. The auxiliary enterprises are substantially self-supporting activities that provide services for students, faculty, and staff.

Scholarship Discounts and Allowances

Student tuition and fee revenues, as well as certain other revenues from students, are reported net of scholarship discounts and allowances in the statement of revenues, expenses, and changes in net position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the university and the amount that is paid by the student and/or third parties making payments on the student's behalf. Certain governmental grants, such as Pell grants, and other federal, state, or nongovernmental programs are recorded as either operating or nonoperating revenues in the university's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the university has recorded a scholarship discount and allowance.

Note 2. Cash

This classification includes demand deposits and petty cash on hand. At June 30, 2020, cash consisted of \$6,597,991.38 in bank accounts, \$55,000.00 of petty cash on hand, \$117,502,292.55 in the Local Government Investment Pool (LGIP) administered by the State Treasurer, and \$1,042,305.97 in LGIP deposits for capital projects.

The LGIP, which is part of the State Pooled Investment Fund, is administered by the State Treasurer and is measured at amortized cost. The fund's required risk disclosures are presented in the *State of Tennessee Treasurer's Report*. That report is available on the state's website at www.treasury.tn.gov.

LGIP deposits for capital projects – Payments related to the university's capital projects are made by the State of Tennessee's Department of Finance and Administration. The university's estimated local share of the cost of each project is held in a separate LGIP account. As expenses are incurred, funds are withdrawn from the LGIP account by the system and transferred to the Department of Finance and Administration. The funds in the account are not available to the university for any other purpose until the project is completed and the system releases any remaining funds.

Note 3. Investments

In accordance with GASB Statement 31, Accounting and Financial Reporting for Certain Investments and External Investment Pools, as amended, and GASB Statement 72, Fair Value

Measurement and Application, as amended, investments are reported at fair value, including those with a maturity date of one year or less at the time of purchase, unless otherwise noted.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of a debt investment. The university does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair-value losses arising from increasing interest rates.

At June 30, 2020, the university had the following investments and maturities.

		Investment Maturities (In Year		
<u>Investment Type</u>	Fair Value	Less than 1	1 to 5	
U.S. agency obligations	\$63,137,230.00	\$17,301,630.00	\$45,835,600.00	

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The university is authorized by statute to invest funds in accordance with the policy of its governing board. Under the current policy, funds other than endowments may be invested only in obligations of the United States or its agencies backed by the full faith and credit of the United States; repurchase agreements for United States securities; certificates of deposit in banks and savings and loan associations; bankers' acceptances; commercial paper; money market mutual funds; and the State of Tennessee Local Government Investment Pool. Securities are rated by Standard and Poor's, Moody's Investors Service, and/or Fitch Ratings and are presented below using the Standard and Poor's rating scale.

The policy restricts investments in bankers' acceptances and commercial paper. The policy requires that prime bankers' acceptances must be issued by domestic banks with a minimum AA rating or foreign banks with a AAA long-term debt rating by a majority of the ratings services that have rated the issuer. Prime bankers' acceptances are required to be eligible for purchase by the Federal Reserve System. To be eligible, the original maturity must not be more than 270 days, and it must (1) arise out of the current shipment of goods between countries or within the United States, or (2) arise out of storage within the United States of goods that are under contract of sale or are expected to move into the channel of trade within a reasonable time and that are secured throughout their life by a warehouse receipt or similar document conveying title to the underlying goods.

The policy requires that prime commercial paper shall be limited to that of corporations that meet the following criteria: (1) Senior long-term debt, if any, should have a minimum rating of A1 or equivalent, and short-term debt should have a minimum rating of A1 or equivalent, as provided by a majority of the rating services that rate the issuer. If there is no long-term debt rating, the short-term debt rating must be A1 by all rating services (minimum of two). (2) The rating should be

based on the merits of the issuer or guarantee by a nonbank. (3) A financial review should be made to ascertain the issuer's financial strength to cover the debt. (4) Commercial paper of a banking institution should not be purchased. Prime commercial paper shall not have a maturity that exceeds 270 days.

At June 30, 2020, the university's investments were rated as follows:

Investment Type Balance		Credit Quality Ratin AA	g <u>Unrated</u>
LGIP \$118,544,598.52 U.S. agency obligations 63,137,230.00		\$ - 63,137,230.00	\$118,544,598.52 -
Total	\$181,681,828.52	\$63,137,230.00	\$118,544,598.52

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the university's investment in a single issuer. The university's policy restricts investments in bankers' acceptances, commercial paper, and money market mutual funds. The policy limits bankers' acceptances to not exceed 20% of the total investments on the date of acquisition and limits the combined amount of bankers' acceptances and commercial paper to not exceed 35% of the total investments at the date of acquisition. The amount invested in any one bank shall not exceed 5% of total investments on the date of acquisition. Additionally, no more than 5% of total investments at the date of acquisition may be invested in the commercial paper of a single issuer. The policy further limits the total holdings of an issuer's commercial paper to not more than 2% of the issuing corporation's total outstanding commercial paper. The university's policy limits investments in money market mutual funds to not exceed 10% of total investments on the date of acquisition.

More than 5% of the university's investments were invested in the following single issuers:

<u>Issuer</u>	Percentage of Total Investments
	June 30, 2020
Federal Home Loan Mortgage Corporation	
(FHLMC) obligations	27%
Federal Farm Credit Bank (FFCB)	
obligations	35%
Federal National Mortgage Association	
(FNMA) obligations	15%
Federal Home Loan Bank (FHLB)	
obligations	23%

Note 4. Fair Value Measurement

The university categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The university has the following recurring fair value measurements as of June 30, 2020.

	Quoted Prices in
	Active Markets for
	Identical Assets
June 30, 2020	(Level 1)
·	
\$63,137,230.00	\$63,137,230.00
\$63,137,230.00	\$63,137,230.00
\$63,137,230.00	\$63,137,230.00
	\$63,137,230.00 \$63,137,230.00

Assets classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Note 5. Receivables

Receivables at June 30, 2020, included the following:

Student accounts receivable	\$ 7,828,235.67
Grants receivable	9,673,591.97
Notes receivable	552,158.46
Clinic receivables	1,487,851.23
Medical Resident Participation Agreement receivable	3,259,776.74
Other receivables	2,497,696.92
Subtotal	25,299,310.99
Less allowance for doubtful accounts	2,812,819.95
Total receivables	\$22,486,491.04
Federal Perkins Loan Program funds at June 30, 2020, included the following:	
Perkins loans receivable	\$4,832,655.27
Less allowance for doubtful accounts	2,769,047.96
Total	\$2,063,607.31

Note 6. Capital Assets

Capital asset activity for the year ended June 30, 2020, was as follows:

	Beginning <u>Balance</u>	Additions	<u>Transfers</u>	Reductions	Ending <u>Balance</u>

Note 7. Capital Leases

The university has entered into an Enhanced Use Lease Agreement with the United States Department of Veterans Affairs (VA) for certain real property, including land and several buildings, at the Veterans Affairs Medical Center in Johnson City, Tennessee. The lease is for a period of 35 years. In lieu of lease payments, the university has assumed responsibility for all capital and recurring costs of maintaining the property covered by the agreements.

In conjunction with the lease, the university entered into a memorandum of agreement with the Department of Veterans Affairs to construct a building (the Basic Science Building) with joint funding from the State of Tennessee and the federal government. In accordance with the memorandum of agreement, the state provided \$18 million to the federal government for its share of the total construction costs (\$34,195,153.41). The Basic Science Building is included under the provisions of the Enhanced Use Lease Agreement. The university is renovating several other buildings on the VA campus as funds become available.

The university's leasing of the Basic Science Building and the other buildings on the VA campus will constitute a capital lease agreement. The lease term is substantially equal to the estimated useful life of the leased property. Accordingly, the university has capitalized the cost of the buildings at \$76,021,754.80. At June 30, 2020, the buildings are reported at \$43,174,351.70, net of accumulated depreciation of \$32,847,403.10.

The university also has a capital lease agreement for equipment utilized by the information technology department. The lease began in August 2019 and ends in August 2022. Any interest associated with the lease was not reported. The asset balance at June 30, 2020, was \$145,924.10, net of accumulated depreciation of \$68,037.63. The following is a schedule by years of future minimum lease payments under this capital lease, together with the present value of the net minimum lease payments as of June 30, 2020.

Year ending June 30:	
2021	\$71,269.44
2022	<u>74,654.66</u>
Total minimum lease payments	<u>\$145,924.10</u>

Note 8. Accounts Payable

Accounts payable at June 30, 2020, included the following:

Vendors payable	\$2,583,952.03
Unapplied student payments	66,154.16
Other payables	2,667,483.29
Total accounts payable	\$5,317,589.48

Note 9. Long-term Liabilities

Long-term liabilities activity for the year ended June 30, 2020, was as follows:

	Beginning <u>Balance</u>	<u>Additions</u>	Reductions	Ending Balance	Current Portion
Payables:			·		
TSSBA debt:					
Bonds	\$ 124,223,790.16	\$36,971,189.46	\$ 6,257,674.33	\$154,937,305.29	\$ 8,032,358.73
Unamortized bond					
premium	16,270,332.01	7,115,384.16	1,407,702.88	21,978,013.29	-
Revolving credit					
facility	27,125,096.73	4,772,787.24	31,897,883.97	-	-
Capital lease obligation	=	213,961.73	68,037.63	145,924.10	71,269.44
Subtotal	167,619,218.90	49,073,322.59	39,631,298.81	177,061,242.68	8,103,628.17

Other liabilities:					
Compensated absences	14,485,213.93	9,031,502.47	6,925,350.93	16,591,365.47	3,549,058.99
Due to grantors	6,203,051.13	-	1,428,019.00	4,775,032.13	-
Subtotal	20,688,265.06	9,031,502.47	8,353,369.93	21,366,397.60	3,549,058.99
Total long-term					
liabilities	\$ 188,307,483.96	\$58,104,825.06	\$47,984,668.74	\$198,427,640.28	\$11,652,687.16

TSSBA Debt - Bonds

Bonds, with interest rates ranging from 1.77% to 5%, were issued by the Tennessee State School Bond Authority (TSSBA). The bonds are due serially to 2048 and are secured by pledges of the facilities' revenues to which they relate and certain other revenues and fees of the university, including state appropriations; see Note 10 for further details. The bonded indebtedness with the TSSBA included in long-term liabilities on the statement of net position is shown net of unexpended debt proceeds. Unexpended debt proceeds were \$6,411,313.54.

Debt service requirements to maturity for the university's portion of TSSBA bonds at June 30, 2020, are as follows:

Year Ending			
June 30	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 8,032,358.73	\$ 7,149,637.36	\$ 15,181,996.09
2021	8,168,659.51	6,806,096.46	14,974,755.97
		· · · · · · · · · · · · · · · · · · ·	, ,
2023	8,484,627.95	6,440,576.06	14,925,204.01
2024	8,335,873.66	6,074,588.96	14,410,462.62
2025	8,042,224.60	5,719,062.89	13,761,287.49
2026-2030	38,082,972.92	23,297,882.51	61,380,855.43
2031-2035	31,648,343.63	15,537,767.04	47,186,110.67
2036-2040	28,836,883.62	8,322,182.09	37,159,065.71
2041-2045	13,150,141.87	2,675,321.35	15,825,463.22
2046-2048	2,155,218.80	165,232.69	2,320,451.49
Total	\$154,937,305.29	\$82,188,347.41	\$237,125,652.70

TSSBA Debt – Revolving Credit Facility

The Tennessee State School Bond Authority (TSSBA) receives loans from the revolving credit facility to finance the costs of various capital projects during the construction phase. When projects are placed in service, TSSBA issues long-term, fixed-rate debt to finance the project over its useful payback period and repays the revolving credit facility debt. No loans from the revolving credit facility were outstanding at June 30, 2020.

More detailed information regarding the bonds and revolving credit facility can be found in the notes to the financial statements in the financial report for the TSSBA. That report is available

on the state's website at https://www.comptroller.tn.gov/boards/tennessee-state-school-bond-authority/investor-information/tssba-financial-reports.html.

Note 10. Pledged Revenues

The university has pledged certain revenues and fees, including state appropriations, to repay \$154,937,305.29 in revenue bonds issued from August 2012 to September 2019 (see Note 9 for further detail). Proceeds from the bonds provided financing for construction and renovation projects. The bonds are payable through 2048. Annual principal and interest payments on the bonds are expected to require 3.73% of available revenues. The total principal and interest remaining to be paid on the bonds is \$237,125,652.70. Principal and interest paid for the current year and total available revenues were \$13,496,468.22 and \$361,760,016.24, respectively.

Note 11. Pension Plans

Defined Benefit Plans

Closed State and Higher Education Employee Pension Plan

General Information About the Pension Plan

<u>Plan description</u> – State employees and higher education employees with membership in the Tennessee Consolidated Retirement System (TCRS) before July 1, 2014, are provided with pensions through the Closed State and Higher Education Employee Pension Plan. This plan is a component of the Public Employee Retirement Plan, an agent, multiple-employer defined benefit pension plan. The Closed State and Higher Education Employee Pension Plan stopped accepting new membership on June 30, 2014, but will continue providing benefits to existing members and retirees. Beginning July 1, 2014, a new agent defined benefit retirement plan, the State and Higher Education Employee Retirement Plan, became effective for state employees and higher education employees hired on or after July 1, 2014.

The TCRS was created by state statute under Title 8, Chapters 34-37, *Tennessee Code Annotated*. The TCRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publicly available financial report that can be obtained at www.treasury.tn.gov/tcrs.

<u>Benefits provided</u> – Title 8, Chapters 34-37, *Tennessee Code Annotated*, establishes the benefit terms and can be amended only by the Tennessee General Assembly. Members of the Closed State and Higher Education Employee Pension Plan are eligible to retire with an unreduced benefit at age 60 with 5 years of service credit or after 30 years of service credit regardless of age. Benefits are determined using the following formula:

A reduced early retirement benefit is available at age 55 and vested. Members are vested with five years of service credit. Service-related disability benefits are provided regardless of length of service. Five years of service is required for non-service-related disability eligibility. The service-related and non-service-related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10% and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost-of-living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to July 2 of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3%, and applied to the current benefit. No COLA is granted if the change in the CPI is less than 0.5%. A 1% COLA is granted if the CPI change is between 0.5% and 1%. A member who leaves employment may withdraw employee contributions, plus any accumulated interest.

Contributions – Contributions for state employees and higher education employees are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. The university's employees are noncontributory, as are most members in the Closed State and Higher Education Employee Pension Plan. State and higher education agencies make employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. By law, employer contributions for the Closed State and Higher Education Employee Pension Plan are required to be paid. Employer contributions by the university for the year ended June 30, 2020, to the Closed State and Higher Education Employee Pension Plan were \$9,344,941, which is 19.66% of covered payroll. The employer rate, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year and the cost of administration, as well as an amortized portion of any unfunded liability.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

<u>Pension liability</u> – At June 30, 2020, the university reported a liability of \$30,412,385 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The university's proportion of the net pension liability was based on a projection of the university's contributions during the year ended June 30, 2019, to the pension plan relative to the contributions of all participating state and higher education

agencies. At the June 30, 2019, measurement date, the university's proportion was 2.153601%. The proportion measured as of June 30, 2018, was 2.184743%.

<u>Pension expense</u> – For the year ended June 30, 2020, the university recognized a pension expense of \$12,578,818.

<u>Deferred outflows of resources and deferred inflows of resources</u> – For the year ended June 30, 2020, the university reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,429,780	\$ 480,793
Net difference between projected and actual earnings on pension plan investments	-	4,000,164
Changes in assumptions	2,187,675	-
Changes in proportion of net pension liability	493,621	335,059
University's contributions subsequent to the		
measurement date of June 30, 2019	9,344,941	
Total	\$13,456,017	\$4,816,016

Deferred outflows of resources, resulting from the university's employer contributions of \$9,344,941 subsequent to the measurement date, will be recognized as a decrease in net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	
2021	\$ 2,954,123
2022	\$ (2,494,583)
2023	\$(1,034,795)
2024	\$ (129,685)

In the table above, positive amounts will increase pension expense, while negative amounts will decrease pension expense.

<u>Actuarial assumptions</u> – The total pension liability as of the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	Graded salary ranges from 8.72% to 3.44% based on age, including inflation, averaging 4%
Investment rate of return	7.25%, net of pension plan investment expenses, including inflation
Cost-of-living adjustment	2.25%

Mortality rates were developed by the actuary using the results of the actuarial experience study performed for the period July 1, 2012, through June 30, 2016, and were adjusted for expected future improvements in life expectancy. Mortality assumptions utilize the RP-2014 industry standard base table adjusted for TCRS experience, with mortality improvement projected six years beyond each actuarial valuation date.

The actuarial assumptions used in the June 30, 2019, actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012, through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016, actuarial experience study. This return was selected from a range of values developed using historical market returns and future capital market projections. The future capital market projections were produced using a building-block method in which a best estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) is developed for each major asset class. These best-estimates are combined to produce the future capital market projection by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.5%. The best-estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major asset class are summarized in the following table:

	Long-term Expected	Target
Asset Class	Real Rate of Return	Allocation
U.S. equity	5.69%	31%
Developed market international equity	5.29%	14%
Emerging market international equity	6.36%	4%
Private equity and strategic lending	5.79%	20%
U.S. fixed income	2.01%	20%
Real estate	4.32%	10%
Short-term securities	0.00%	1%
		100%

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25% based on a comparison of historical market returns and future capital market projections.

<u>Discount rate</u> – The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from all state and higher education agencies will be made at the actuarially determined contribution rate in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the proportionate share of net pension liability to changes in the discount rate – The following presents the university's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the university's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

		Current	
	1% Decrease (6.25%)	Discount Rate (7.25%)	1% Increase (8.25%)
University's proportionate share of the	(0.2370)	(1.2370)	(6.2370)
net pension liability (asset)	\$73,392,696	\$30,412,385	\$(4,552,456)

<u>Pension plan fiduciary net position</u> – Detailed information about the pension plan's fiduciary net position is available in a separately issued TCRS financial report at www.treasury.tn.gov/tcrs.

State and Higher Education Employee Retirement Plan

General Information About the Pension Plan

<u>Plan description</u> – State employees and higher education employees with membership in the Tennessee Consolidated Retirement System (TCRS) before July 1, 2014, are provided with pensions through the Closed State and Higher Education Employee Pension Plan, an agent plan within the Public Employee Retirement Plan administered by the TCRS. TCRS is a multiple-employer pension plan. The Closed State and Higher Education Pension Plan was closed effective June 30, 2014, and covers employees hired before July 1, 2014. Employees hired after June 30, 2014, are provided with pensions through a legally separate plan referred to as the State and Higher Education Employee Retirement Plan, an agent plan within the Public Employee Retirement Plan administered by the TCRS. The TCRS was created by state statute under Title 8, Chapters 34-37, *Tennessee Code Annotated*.

Benefits provided – Title 8, Chapters 34-37, Tennessee Code Annotated, establishes the benefit terms and can be amended only by the Tennessee General Assembly. Members of the State and Higher Education Employee Retirement Plan are eligible to retire at age 65 with 5 years of service credit or pursuant to the rule of 90 in which the member's age and years of service credit total 90. Members are entitled to receive unreduced service retirement benefits, which are determined by a formula multiplying the member's highest five consecutive years' average compensation by 1% multiplied by the member's years of service credit. A reduced early retirement is available at age 60 with 5 years of service credit or pursuant to the rule of 80 in which a member's age and years of service credit total 80. Service-related disability benefits are provided regardless of length of service. Five years of service are required for non-service-related disability eligibility. The service-related and non-service-related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10% and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost-of-living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to July 2 of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3%, and applied to the current benefit. No COLA is granted if the change in the CPI is less than 0.5%. A 1% COLA is granted if the CPI change is between 0.5% and 1%. A member who leaves employment may withdraw employee contributions, plus any accumulated interest.

Contributions – Contributions for state and higher education employees are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. University employees contribute 5% of their salary to the State and Higher Education Employee Retirement Plan. The higher education institutions make employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. By law, employer contributions for the State and Higher Education Employee Retirement Plan are required to be paid. Employer contributions by the university for the year ended June 30, 2020, to the State and Higher Education Employee Retirement Plan were \$481,545, which is 1.73% of covered payroll. The employer rate, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year and the cost of administration, as well as an amortized portion of any unfunded liability.

Pension Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

<u>Pension asset</u> – At June 30, 2020, the university reported an asset of \$968,981 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2019, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. The university's proportion of the net pension asset was based on a projection of the university's contributions during the year ended June 30, 2019, to the pension plan relative to the contributions of all participating state and higher education agencies. At the June 30, 2019, measurement date, the university's proportion was 2.336161%. At the June 30, 2018, measurement date, the university's proportion was 2.197890%.

<u>Pension expense</u> – For the year ended June 30, 2020, the university recognized a pension expense of \$307,763.

<u>Deferred outflows of resources and deferred inflows of resources</u> – For the year ended June 30, 2020, the university reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Differences between expected and actual experience	\$ 21,603	\$ 31,431
Net difference between projected and actual		
earnings on pension plan investments	-	40,023
Change in assumptions	26,784	-
Changes in proportion of net pension asset	1,378	66,819
University's contributions subsequent to the		
measurement date of June 30, 2019	481,545	
Total	\$531,310	\$138,273

Deferred outflows of resources, resulting from the university's employer contributions of \$481,545 subsequent to the measurement date, will be recognized as a decrease in net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	
2021	\$ (19,362)
2022	\$ (24,393)
2023	\$ (13,895)
2024	\$ (8,139)
2025	\$ (3,420)
Thereafter	\$ (19,299)

In the table above, positive amounts will increase pension expense, while negative amounts will decrease pension expense.

<u>Actuarial assumptions</u> – The total pension liability as of the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	Graded salary ranges from 8.72% to 3.44% based on age, including inflation, averaging 4.0%
Investment rate of return	7.25%, net of pension plan investment expenses, including inflation
Cost-of-living adjustment	2.25%

Mortality rates were developed by the actuary using the results of the actuarial experience study performed for the period July 1, 2012, through June 30, 2016, and were adjusted for expected future improvements in life expectancy. Mortality assumptions utilize the RP-2014 industry standard base table adjusted for TCRS experience, with generational mortality improvement.

The actuarial assumptions used in the June 30, 2019, actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012, through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016, actuarial experience study. This return was selected from a range of values developed using historical market returns and future capital market projections. The future capital market projections were produced using a building-block method in which a best estimate of expected real rates of return (expected returns, net of pension plan investment expense and inflation) is developed for each major asset class. These best estimates are combined to produce the future capital market projection by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.5%. The best-estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major asset class are summarized in the following table:

	Long-term Expected	Target
Asset Class	Real Rate of Return	<u>Allocation</u>
U.S. equity	5.69%	31%
Developed market international equity	5.29%	14%
Emerging market international equity	6.39%	4%
Private equity and strategic lending	5.79%	20%
U.S. fixed income	2.01%	20%
Real estate	4.32%	10%
Short-term securities	0.00%	1%
	_	100%

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25% based on a comparison of historical market returns and future capital market projections.

<u>Discount rate</u> – The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from all state and higher education agencies will be made at the actuarially determined contribution rate in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the proportionate share of net pension asset to changes in the discount rate – The following presents the university's proportionate share of the net pension asset calculated using the discount rate of 7.25%, as well as what the university's proportionate share of the net pension asset would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

		Current	
	1% Decrease	Discount Rate	1% Increase
	<u>(6.25%)</u>	<u>(7.25%)</u>	(8.25%)
University's proportionate share of the			
net pension asset (liability)	(\$158,738)	\$968,981	\$1,817,333

<u>Pension plan fiduciary net position</u> – Detailed information about the pension plan's fiduciary net position is available in a separately issued TCRS financial report at www.treasury.tn.gov/tcrs.

Total Defined Benefit Pension Expense

The total pension expense for the year ended June 30, 2020, for all state government defined benefit pension plans was \$12,886,581.

Defined Contribution Plans

Optional Retirement Plans

<u>Plan description</u> – The university contributes to the Optional Retirement Plan (ORP). The ORP, administered by the Tennessee Treasury Department, is a defined contribution plan. The ORP was established by state statute in Title 8, Chapter 25, Part 4, *Tennessee Code Annotated*. This statute also sets out the plan provisions. The plan provisions are amended by the Tennessee General Assembly. The ORP was designed to provide benefits at retirement to faculty and staff who are exempt from the overtime provision of the Fair Labor Standards Act and who waive membership in the TCRS. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings.

<u>Funding policy</u> – For employees employed prior to July 1, 2014, plan members are noncontributory. The university contributes an amount equal to 10% of the employee's base salary up to the social security wage base and 11% above the social security wage base. For employees hired after June 30, 2014, plan members will contribute 5% to the ORP and the university will contribute 9% of the employee's base salary. Pension expense equaled the required contributions made to the ORP and were \$8,492,427.54 for the year ended June 30, 2020, and \$8,336,506.75 for the year ended June 30, 2019. Contributions met the requirements for each year.

Members are immediately 100% vested in the employer contributions made pursuant to the ORP. The Treasury Department has selected three investment vendors who offer a variety of investment products in which members are responsible for selecting how the contributions are invested. Each member makes the decision when to reallocate future contributions or when to transfer funds from one investment product to another. Funds are held by the investment vendor in the name of the member, not in the name of the State of Tennessee. The State of Tennessee has no discretion over these funds other than to make the initial contributions. Accordingly, the State of Tennessee is not acting in a trustee capacity, nor does it have a fiduciary responsibility for the funds held by the investment vendors.

Deferred Compensation Plans

Employees are offered three deferred compensation plans. The university, through the State of Tennessee, provides two plans, one established pursuant to the *Internal Revenue Code* (IRC), Section 457, and the other pursuant to IRC, Section 401(k). The third plan is administered by the university and was established in accordance with IRC, Section 403(b). The plans are outsourced to third-party vendors, and the administrative costs assessed by the vendors of these plans are the responsibility of plan participants. Section 401(k), Section 403(b), and Section 457 plan assets remain the property of the contributing employees; therefore, they are not presented in the accompanying financial statements. Sections 401(k), 403(b), and 457 establish participation, contribution, and withdrawal provisions for the plans. Participation in the 403(b) and the 457 plans is voluntary for employees. The university provides up to a \$50 monthly employer match for employees who participate in the state's 401(k) plan. Employees hired before July 1, 2014, voluntarily participate in the state's 401(k) plan. Pursuant to Chapter 259 of the Public Acts of 2013, employees hired after June 30, 2014, are automatically enrolled in the state's 401(k) plan if they elect to be in the TCRS pension plan. Employees contribute 2% of their salary, with the employer contributing an additional non-matching 5%. Employees may opt out of the 2% auto enrollment. Such contribution rates may only be amended by the Tennessee General Assembly. There are certain automatic cost controls and unfunded liability controls in the defined benefit plan where the employees participate that may impact the non-matching 5% employer contribution to the 401(k) plan.

Employees are immediately vested in both the employee and employer contributions in all plans. The IRC establishes maximum limits that an employee can contribute to these plans. The employee may increase, decrease, or stop contributions at any time for all three plans.

During the year ended June 30, 2020, contributions totaling \$4,732,370.58 were made by employees participating in the 401(k) plan, and the university recognized pension expense of \$2,529,351.36 for employer contributions. During the year ended June 30, 2019, contributions totaling \$4,280,708.00 were made by employees participating in the 401(k) plan, and the university recognized pension expense of \$2,177,444.15 for employer contributions.

Note 12. Other Postemployment Benefits

Closed State Employee Group OPEB Plan

General information about the OPEB plan

Plan description – Employees of the university, who were hired prior to July 1, 2015, and choose coverage, are provided with pre-65 retiree health insurance benefits through the Closed State Employee Group OPEB Plan (EGOP) administered by the Tennessee Department of Finance and Administration. This plan is considered to be a single-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB). This plan is closed to the employees of all participating employers that were hired on or after July 1, 2015. The employers participating in this plan include the State of Tennessee (primary government), the Tennessee Student Assistance Corporation, the Tennessee Housing Development Agency, the University of Tennessee, and the institutions that make up the State University and Community College System. The State of Tennessee Postemployment Benefits Trust (OPEB Trust) was established to accumulate resources to pay for the retiree benefits of EGOP participants. The OPEB Trust prepares a stand-alone financial report that can be found at https://www.tn.gov/finance/rd-doa/opeb22121.html.

Benefits provided – The EGOP is offered to provide health insurance coverage to eligible retired and disabled participants and is the only postemployment benefit provided to eligible pre-65 participants. Benefits are established and amended by an insurance committee created by Title 8, Chapter 27, Section 201, *Tennessee Code Annotated*. All retirees and disabled employees of the primary government and certain component units, who are eligible and choose coverage, and who have not yet reached the age of 65 are enrolled in this plan. All members have the option of choosing between the premier preferred provider organization (PPO) plan, the standard PPO plan, or the wellness health savings consumer-driven health plan (CDHP) for healthcare benefits. Retired plan members receive the same plan benefits as active employees, at a blended premium rate that considers the cost of active and retired employees. This creates an implicit subsidy for the retirees. The retirees' cost is then directly subsidized by the employers, based on years of service. Therefore, retirees with 30 years of service are subsidized 80%; 20 but less than 30 years, 70%; and less than 20 years, 60%.

<u>Contributions</u> – Annually, an insurance committee, created in accordance with Title 8, Chapter 27, Section 201, *Tennessee Code Annotated*, establishes the required contributions to the plan by member employees through the premiums established to approximate claims cost for the year. Pre-age 65 retired members of the EGOP pay a premium based on a blended rate that considers

the cost of active and retired employees as well as their individual years of service. Therefore, retirees pay either 20%, 30%, 40%, or 100% of the appropriate premium rate. These payments are deposited into the OPEB Trust. Employers contribute to the OPEB Trust based on an actuarially determined contribution (ADC) rate calculated in a manner to meet the funding goals of the state. The total ADC rate for plan employers for the fiscal year ended June 30, 2020 was \$145.4 million. The university's share of the ADC was \$3,445,774. During the fiscal year, the university contributed \$3,445,774 to the OPEB Trust. The Tennessee General Assembly has the authority to change the contribution requirements of the employers participating in the EGOP.

Net OPEB Liability, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

Proportionate share – The university's proportionate share of the collective net OPEB liability related to the EGOP, was \$20.6 million. At the June 30, 2019, measurement date, the university's proportion of the collective net OPEB liability was 2.1631101485%. The proportion existing at the prior measurement date was 2.2049885738%. This represents a change in proportion of (0.0418784253%) between the current and prior measurement dates. The university's proportion of the collective total OPEB liability was based on a projection of the long-term share of contributions to the OPEB plan relative to the projected share of contributions of all participating employers, actuarially determined. The collective total OPEB liability was determined by an actuarial valuation with a valuation date of June 30, 2019, and a measurement date of June 30, 2019.

<u>OPEB expense</u> – For the year ended June 30, 2020, the university recognized OPEB expense of \$1,178,577.

<u>Deferred outflows of resources and deferred inflows of resources</u> – For the year ended June 30, 2020, the university reported deferred outflows of resources and deferred inflows of resources related to OPEB paid by the EGOP from the following sources:

	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Difference between actual and expected		
experience	\$ -	\$ 1,311,457
Changes in assumptions	1,125,693	4,919,877
Net difference between actual and projected		
investment earnings	15,122	-
Changes in proportion and differences between		
benefits paid and proportionate share of		
benefits paid	1,443,475	3,702,490
Contributions subsequent to the measurement		
date	3,445,774	
Total	\$6,030,064	\$9,933,824

Deferred outflows of resources, resulting from the university's employer contributions of \$3,445,774 subsequent to the measurement date, will be recognized as a decrease in the collective net OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows.

Year Ended June 30	
2021	(\$1,218,249)
2022	(\$1,218,249)
2023	(\$1,218,249)
2024	(\$1,218,251)
2025	(\$1,222,030)
Thereafter	(\$1,254,506)

In the table above, positive amounts will increase OPEB expense, while negative amounts will decrease OPEB expense.

<u>Actuarial assumptions</u> – The collective total OPEB liability in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.2%
Salary increases	Graded salary ranges from 3.44% to 8.72% based on age, including inflation, averaging 4%
Healthcare cost trend rates	6.03% for 2020, decreasing annually to an ultimate rate of 4.5% for 2029 and later years
Retiree's share of benefit-related costs	Members are required to make monthly contributions in order to maintain their coverage. For the purpose of this valuation, a weighted average has been used with weights derived from the current distribution of members among plans offered.

Unless noted otherwise, the actuarial demographic assumptions used in the June 30, 2019, valuations were the same as those employed in the July 1, 2017, pension actuarial valuation of the Tennessee Consolidated Retirement System (TCRS) for Group I employees. These assumptions were developed by TCRS based on the results of an actuarial experience study for the period July 1, 2012, through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience. Mortality tables are used to measure the probabilities of participants dying before and after retirement. The mortality rates employed in this valuation are taken from the RP-2014 Healthy Participant Mortality Table for Annuitants for non-disabled post-retirement mortality, with mortality improvement projected to all future years

using Scale MP-2016. Post-retirement tables are Blue Collar and adjusted with a 2% load for males and a -3% load for females. Mortality rates for impaired lives are the same as those used by TCRS and are taken from a gender distinct table published in the IRS Ruling 96-7 for disabled lives with a 10% load.

Long-term expected rate of return — The long-term expected rate of return of 6 percent on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. TCA 8-27-802 establishes the responsibility of the trustees to adopt written investment policies authorizing how assets in the OPEB Trust may be invested and reinvested by the State Treasurer. The treasurer may invest trust assets in any security or investment in which the Tennessee Consolidated Retirement System (TCRS) is permitted to invest, provided that investments by the OPEB Trust shall be governed by the investment policies and guidelines adopted by the trustees. Any changes to the investment policy will be the responsibility of the established trustees. The OPEB Trust investment policy target asset allocation and allocation range for each major asset class is summarized in the following table:

			<u>Target</u>
Asset Class	<u>Minimum</u>	<u>Maximum</u>	<u>Allocation</u>
Equities	25%	80%	53%
Fixed income and short-term securities	20%	50%	25%
Real estate	0%	20%	10%
Private equity and strategic lending	0%	20%	7%
Cash and cash equivalents	0%	25%	5%
			100%

The best estimates of geometric real rates of return for each major asset class included in the target asset allocation as of June 30, 2019 are summarized in the following table:

	<u>Long-term</u>
	Expected Real
Asset Class	Rate of Return
U.S. equity	4.75%
Private equity and strategic lending	4.60%
U.S. fixed income	0.63%
Real estate	4.28%
Developed market international equity	5.63%
Emerging market international equity	5.95%

<u>Discount rate</u> - The discount rate used to measure the total OPEB liability was 6%. This represents an increase of 2.38% over the 3.62% used at the prior measurement date. The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made at rates equal to the ADC rates pursuant to an actuarial valuation in accordance with the state's funding goals. Inactive plan members are assumed to contribute their share of the premium rate for the coverage option in which they are enrolled. Based on those assumptions, the OPEB Trust fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB Trust investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The change in discount rate used is due to the transition of the EGOP from a pay-as-you-go arrangement to a prefunding arrangement through a qualified trust.

<u>Changes in assumptions</u> – The discount rate was changed from 3.62% as of the beginning of the measurement period to 6% as of June 30, 2019. This change in assumption decreased the total OPEB liability. Other minor changes in assumptions were made; however, the impact on the net OPEB liability was considered to be insignificant.

Sensitivity of the proportionate share of the collective net OPEB liability to changes in the discount rate – The following presents the university's proportionate share of the collective net OPEB liability of the EGOP, as well as what the proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (5%) or 1 percentage point higher (7%) than the current rate (expressed in thousands):

	Current			
	1% Decrease (5%)	Discount Rate (6%)	1% Increase (7%)	
University's proportionate share of the				
collective net OPEB liability	\$22,466	\$20,597	\$18,866	

Sensitivity of proportionate share of the collective net OPEB liability to changes in the healthcare cost trend rate – The following presents the university's proportionate share of the collective net OPEB liability of the EGOP, as well as what the proportionate share of the collective net OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1 percentage point lower (5.03% decreasing to 3.5%) or 1 percentage point higher (7.03% decreasing to 5.5%) than the current healthcare cost trend rate (expressed in thousands):

		Healthcare Cost	
	1% Decrease	Trend Rates	1% Increase
	(5.03%	(6.03%	(7.03%
	decreasing to	decreasing to	decreasing to
	<u>3.5%)</u>	<u>4.5%)</u>	<u>5.5%)</u>
University's proportionate share of the			
collective net OPEB liability	\$18,190	\$20,597	\$23,390

<u>OPEB plan fiduciary net position</u> – Detailed information about the OPEB plan's fiduciary net position is available in the State of Tennessee Comprehensive Annual Financial Report found at https://www.tn.gov/finance/rd-doa/fa-accfin-cafr.html.

Closed Tennessee OPEB Plan

General Information About the OPEB Plan

Plan description – Employees of the university, who were hired prior to July 1, 2015, and choose coverage, are provided with post-65 retiree health insurance benefits through the Closed Tennessee OPEB Plan (TNP) administered by the Tennessee Department of Finance and Administration. This plan is considered to be a multiple-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB). However, for accounting purposes, this plan will be treated as a single-employer plan. This plan is closed to the employees of all participating employers that were hired on or after July 1, 2015. The State of Tennessee (primary government) as well as the Tennessee Student Assistance Corporation, the Tennessee Housing Development Agency, the University of Tennessee, and the other institutions that make up the State University and Community College System also participate in this plan. This plan also serves eligible post-65 retirees of employers who participate in the state-administered Teacher Group Insurance and Local Government Insurance Plans.

Benefits provided – The TNP is offered to help fill most of the coverage gaps created by Medicare and is the only postemployment benefit provided to eligible post-65 retired and disabled employees of participating employers. This plan does not include pharmacy. In accordance with Title 8, Chapter 27, Section 209, Tennessee Code Annotated, benefits are established and amended by cooperation of insurance committees created by Sections 8-27-201, 301, and 701 Tennessee Code Annotated. Retirees and disabled employees of the state, component units, local education agencies, and certain local governments who have reached the age of 65, are Medicare-eligible, and also receive a benefit from the Tennessee Consolidated Retirement System may participate in this plan. All plan members receive the same plan benefits at the same premium rates. Many retirees receive direct subsidies toward their premium cost; however, participating employers determine their own policy in this regard. The primary government contributes to the premiums of component unit retirees based on years of service. Therefore, retirees with 30 years of service receive \$50 per month; 20 but less than 30 years, \$37.50; and 15 but less than 20 years, \$25. The university does not provide any subsidies for retirees in the TNP. The primary government paid \$155,863 for OPEB as the benefits came due during the reporting period. This plan is funded on a pay-as-you-go basis, and there are no assets accumulating in a trust that meets the criteria of paragraph 4 of GASB Statement 75.

In accordance with Title 8, Chapter 27, Part 209, *Tennessee Code Annotated*, the state insurance committees established by Sections 8-27-201, 301, and 701, *Tennessee Code Annotated*, determine the required payments to the plan by member employers and employees. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. Administrative costs are allocated to plan participants. Employers contribute towards employee costs based on their own developed policies.

Total OPEB Liability and OPEB Expense

<u>Proportionate share</u> – The primary government is entirely responsible for the TNP OPEB liability associated with the university's employees. The primary government's proportionate share of the total OPEB liability associated with the university was \$4,140,482. At the June 30, 2019, measurement date, the proportion of the collective total OPEB liability associated with the university was 2.365372%. This represents a change of (0.099617%) from the prior proportion of 2.464989%. The proportion of the collective total OPEB liability associated with the university was based on a projection of the long-term share of contributions to the OPEB plan relative to the projected share of contributions of all participating employers, actuarially determined. The collective total OPEB liability was determined by an actuarial valuation with a valuation date of June 30, 2019, and measurement date of June 30, 2019.

<u>Actuarial assumptions</u> – The total OPEB liability in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.2%

Salary increases Graded salary ranges from 3.44% to 8.72%

based on age, including inflation, averaging 4%

Healthcare cost trend rates

The premium subsidies provided to retirees in

the Closed Tennessee OPEB Plan are assumed to remain unchanged for the entire projection;

therefore, trend rates are not applicable.

Unless noted otherwise, the actuarial demographic assumptions used in the June 30, 2019, valuations were the same as those employed in the July 1, 2017, pension actuarial valuation of the Tennessee Consolidated Retirement System (TCRS) for Group I employees. These assumptions were developed by TCRS based on the results of an actuarial experience study for the period July 1, 2012, through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience. Mortality tables are used to measure the probabilities of participants dying before and after retirement. The mortality rates employed in this valuation are taken from the RP-2014 Healthy Participant Mortality Table for Annuitants for non-disabled post-retirement mortality, with mortality improvement projected to all future years using Scale MP-2016. Post-retirement tables are Blue Collar and adjusted with a 2% load for males and a -3% load for females. Mortality rates for impaired lives are the same as those used by TCRS and are taken from a gender distinct table published in the IRS Ruling 96-7 for disabled lives with a 10% load.

<u>Discount rate</u> – The discount rate used to measure the total OPEB liability was 3.51%. This rate reflects the interest rate derived from yields on 20-year, tax-exempt general obligation municipal bonds, prevailing on the measurement date, with an average rating of AA as shown on the Fidelity 20-Year Municipal GO AA index.

<u>Changes in assumptions</u> – The discount rate was changed from 3.62% as of the beginning of the measurement period to 3.51% as of June 30, 2019. This change in assumption increased the total OPEB liability.

Sensitivity of the proportionate share of the collective total OPEB liability to changes in the discount rate – The following presents the primary government's proportionate share of the university's related collective total OPEB liability, as well as what the proportionate share of the collective total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.51%) or 1 percentage point higher (4.51%) than the current discount rate. The university does not report a proportionate share of the OPEB liability for employees in the TNP.

	Current			
	1% Decrease	Discount Rate	1% Increase	
	<u>(2.51%)</u>	<u>(3.51%)</u>	(4.51%)	
Primary government's proportionate				
share of the collective total OPEB				
liability	\$4,692,909	\$4,140,482	\$3,679,189	

<u>OPEB expense</u> – For the year ended June 30, 2020, the primary government recognized OPEB expense of \$153,693 for employees of the university participating in the TNP.

Total OPEB Expense

The total OPEB expense for the year ended June 30, 2020, was \$1,332,270, which consisted of OPEB expense of \$1,178,577 for the EGOP and \$153,693 paid by the primary government for the TNP.

Note 13. Revenues

A summary of adjustments and allowances by revenue classification is presented as follows:

Revenue <u>Source</u>	Gross <u>Revenue</u>	Less Scholarship <u>Allowances</u>	Less Uncollectible Debt Adjustments	Net <u>Revenue</u>
Tuition and fees	\$179,074,260.86	\$59,101,874.06	\$805,393.31	\$119,166,993.49
Nongovernmental grants and contracts	22,760,067.29	-	94,987.49	22,665,079.80
Sales and services of				
educational activities	21,403,762.51	-	(19,558.89)	21,423,321.40

Sales and services of				
other activities	10,643,322.59	-	30,000.00	10,613,322.59
Residential life	13,601,775.92	425,999.13	83,088.53	13,092,688.26
Food service	6,708,553.80	-	35,260.45	6,673,293.35
Other auxiliaries	2,733,393.84	-	35,767.15	2,697,626.69
Total	\$256,925,136.81	\$59,527,873.19	\$1,064,938.04	\$196,332,325.58

Note 14. Chairs of Excellence

The university had \$31,583,237.91 on deposit at June 30, 2020, with the State Treasurer for its Chairs of Excellence program. These funds are held in trust by the state and are not included in the financial statements.

Note 15. Insurance-related Activities

It is the policy of the state not to purchase commercial insurance for the risks associated with casualty losses for general liability, automobile liability, medical malpractice liability, and workers' compensation. By statute, the maximum liability for general liability, automobile liability, and medical malpractice liability is \$300,000 per person and \$1,000,000 per occurrence. The state's management believes it is more economical to manage these risks internally and set aside assets for claim settlement in its internal service fund, the Risk Management Fund (RMF). The state purchases commercial insurance for real property, crime and fidelity coverage on the state's officials and employees, and cyber liability coverage. For property coverage, the deductible for an individual state agency is the first \$25,000 of losses. The RMF is responsible for property losses for the annual aggregate deductible of \$7.5 million for perils other than earthquake and flood. Purchased insurance coverage is responsible for losses exceeding the \$7.5 million annual aggregate deductible. For earthquake and flood, there is a deductible of \$10 million per occurrence. The maximum insurance coverage is \$750 million per year for perils other than earthquake and flood. The maximum flood insurance coverage is \$50 million per occurrence, except there is only \$25 million of coverage in flood zones A and V. The maximum earthquake insurance coverage is \$50 million per occurrence. The amounts of settlements have not exceeded insurance coverage for each of the three past fiscal years.

The university participates in the RMF. The fund allocates the cost of providing claims servicing and claims payment by charging a premium to the university based on a percentage of the university's expected loss costs, which include both experience and exposures. This charge considers recent trends in actual claims experience of the state as a whole. Information regarding the determination of the claims liabilities and the changes in the balances of the claims liabilities for the year ended June 30, 2020, is presented in Tennessee's *Comprehensive Annual Financial Report* (CAFR). The CAFR is available on the state's website at www.tn.gov/finance/rd-doa/fa-accfincafr.html. At June 30, 2020, the RMF held \$231 million in cash designated for payment of claims.

At June 30, 2020, the scheduled coverage for the university was \$906,947,960 for buildings and \$192,293,000 for contents.

The state has also set aside assets in the Employee Group Insurance Fund, an internal service fund, to provide a program of health insurance coverage for the employees of the state, with the risk retained by the state. The university participates in the Employee Group Insurance Fund. The fund allocates the cost of providing claims servicing and claims payment by charging a premium to the university based on estimates of the ultimate cost of claims, including the cost of claims that have been reported but not settled and of claims that have been incurred but not reported. Employees and providers have 13 months to file medical claims.

Note 16. Commitments and Contingencies

Sick Leave

The university records the cost of sick leave when paid. The dollar amount of unused sick leave was \$69,283,803.16 at June 30, 2020.

Operating Leases

The university has entered into various operating leases for buildings and equipment. Such leases will probably continue to be required. Expenses under operating leases for real property were \$586,193.85 for the year ended June 30, 2020. All operating leases are cancelable at the lessee's option.

Construction in Progress

At June 30, 2020, outstanding commitments under construction contracts totaled \$50,122,102.64 for construction and renovation projects, of which \$26,036,225.50 will be funded by future state capital outlay appropriations.

Litigation

The university is involved in several lawsuits, none of which are expected to have a material effect on the accompanying financial statements.

Note 17. Natural Classification With Functional Classifications

The university's operating expenses for the year ended June 30, 2020, are as follows:

	Natural Classification					
Functional Classification	Salaries	Benefits	Other Operating	Scholarships	Depreciation	Total
				<u>+</u> _	*	
Instruction	\$112,679,754.77	\$40,711,787.37	\$18,131,948.08	\$ -	\$ -	\$171,523,490.22
Research	7,227,828.91	2,223,097.74	4,117,204.25	-	-	13,568,130.90
Public service	15,272,130.14	5,587,835.45	12,429,630.31	-	-	33,289,595.90
Academic support	20,628,289.98	9,457,807.20	5,104,121.12	-	-	35,190,218.30
Student services	14,200,212.28	6,248,566.68	8,243,916.01	-	-	28,692,694.97

Note 18. Affiliated Entity Not Included

The East Tennessee State University Research Foundation is a private, nonprofit foundation with the university as the sole beneficiary. The Research Foundation is controlled by a board independent of the university. The financial records, investments, and other financial transactions are handled external to the university, and these amounts are not included in the university's financial report. As reported in the foundation's most recently audited financial report, at June 30, 2020, the assets of the foundation totaled \$610,611.76, liabilities were \$4,512.60, and the net position amounted to \$606,099.16.

Note 19. Insurance Recoveries

The university sustained damage to various buildings on campus and some of the equipment they contained due to several unrelated events. The impairment of all assets involved was temporary, and no impairment loss was recognized. An insurance recovery for the capital damage in the amount of \$434,452.06 was recorded in fiscal year 2020. The insurance recovery is classified as other nonoperating revenue in the statement of revenues, expenses, and changes in net position.

Note 20. On-Behalf Payments

During the year ended June 30, 2020, the State of Tennessee made payments of \$155,862.50 on behalf of the university for retirees participating in the Closed Tennessee OPEB Plan. The Tennessee Plan is a postemployment benefit healthcare plan and is discussed further in Note 12.

Note 21. Component Units

EAST TENNESSEE STATE UNIVERSITY FOUNDATION

The East Tennessee State University Foundation is a legally separate, tax-exempt organization supporting East Tennessee State University. The foundation acts primarily as a fund-raising organization to supplement the resources that are available to the university in support of its programs. The 25-member board of the foundation is self-perpetuating and consists of graduates and friends of the university. Although the university does not control the timing or amount of receipts from the foundation, the majority of resources, or income thereon, that the foundation holds and invests are restricted to the activities of the university by the donors. Because these restricted resources held by the foundation can only be used by, or for the benefit of, the university, the foundation is considered a component unit of the university and is discretely presented in the university's financial statements.

During the year ended June 30, 2020, the foundation made distributions of \$4,009,232.50 to or on behalf of the university for both restricted and unrestricted purposes. Complete financial statements for the foundation can be obtained from Dr. B.J. King, ETSU Chief Financial Officer, P.O. Box 70601, Johnson City, TN 37614.

Cash and Cash Equivalents

In addition to demand deposits and petty cash on hand, this classification includes instruments that are readily convertible to known amounts of cash and that have original maturities of three months or less. At June 30, 2020, cash and cash equivalents consisted of \$308,116.44 in bank accounts, \$9,670,142.88 in the Local Government Investment Pool (LGIP) administered by the State Treasurer, and \$769,903.89 in cash held by others.

The LGIP is measured at amortized cost and is part of the State Pooled Investment Fund. The fund's required risks disclosures are presented in the *State of Tennessee Treasurer's Report*. That report is available at the state's website at www.treasury.tn.gov.

Investments

In accordance with GASB Statement 31, Accounting and Financial Reporting for Certain Investments and External Investment Pools, as amended, and GASB Statement 72, Fair Value Measurement and Application, as amended, investments are reported at fair value, including those with a maturity date of one year or less at the time of purchase, unless otherwise noted. All investments are valued at fair value except insurance contracts, which are valued at cash surrender value. The foundation is authorized to invest funds in accordance with its board of directors' policies.

As of June 30, 2020, the foundation had the following investments and maturities.

Investment Maturities (in Years)

Investment Type	Reported Value	Less than 1	1 to 5	6 to 10	More than 10	Unknown
U.S. government						
obligations	\$12,411,027.90	\$ 4,086,174.90	\$ 833,803.80	\$ 7,491,049.20	\$ -	\$ -

Cash surrender value of	
life insurance	248,947.08
Total investments	\$97,803,455.76

<u>Interest Rate Risk</u> – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of a debt investment. In order to reduce the exposure to interest rate risk, the foundation will set limits regarding the weighted average maturity for each direct investment pool. In the case of federal securities, the weighted average of all investments should be less than three years.

<u>Credit Risk</u> – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Securities are rated using Standard and Poor's, Moody's Investor Service, and/or Fitch Ratings and are presented below using the Standard and Poor's rating scale. The foundation's policy is that positions in debt securities owned by the foundation should not be below investment grade, and the foundation's investment advisors have discretion to invest in bond funds that they deem appropriate for the foundation's investment portfolio.

At June 30, 2020, the foundation's investments were rated as follows:

D 4 1	Credit Quality Rating					
Value Value	<u>AAA</u>	<u>AA</u>	<u>A</u>	BBB or Less	Unrated	
\$9,670,142.88	\$ -	\$ -	\$ -	\$ -	\$9,670,142.88

<u>Custodial Credit Risk</u> – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the foundation will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The foundation does not have a

policy for custodial credit risk. At June 30, 2020, the foundation had \$97,554,508.68 of uninsured and unregistered investments for which the securities are held by the counterparty.

Investments of the foundation's endowment and similar funds are composed of the following at June 30, 2020:

	Reported Value
U.S. government obligations	\$11,169,925.11
U.S. agency obligations	3,088,693.80
Corporate bonds	11,940,831.45
Pooled investment vehicles	50,457,855.87
Hedge fund	5,680,548.70
Deposits held by others	769,903.89
Total	\$83,107,758.82

Assets of endowments are pooled on a fair-value basis, with each individual fund subscribing to or disposing of units on the basis of the fair value per unit at the beginning of the calendar quarter within which the transaction takes place. Of the total units at March 31, 2020, each having a fair value of \$1.0632540765, 72,875,068.19 units were owned by permanent endowments, and 4,487,714.80 units were owned by quasi-endowments.

The following tabulations summarize changes in relationships between cost and fair values of the pooled assets for the year ended June 30, 2020:

	Pooled .	Assets		Fair
	Fair Value	<u>Cost</u>	Net Gains (Losses)	Value <u>Per Unit</u>
End of year Beginning of year	\$97,554,508.68 \$94,897,217.85	\$97,065,755.55 \$92,982,304.39	\$ 488,753.13 1,914,913.46	\$1.0632540765 \$1.0480596676
Unrealized net gains (losses) Realized net gains Total net gains			(1,426,160.33) 1,507,276.70 \$ 81,116.37	

The average annual earnings per unit, exclusive of net gains, were \$.026 for the year ended June 30, 2020.

Fair Value Measurement

The foundation categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The foundation has the following recurring fair value measurements as of June 30, 2020:

	June 30, 2020	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Other Significant Observable Unobservable Inputs Inputs		Investments Measured at the Net Asset Value (NAV)	
Assets by Fair Value Leve	el						
Debt securities:							
U.S. government							
obligations	\$12,411,027.90	\$12,411,027.90	\$ -	\$	=	\$ -	
U.S. agency obligations	3,431,882.00	3,431,882.00	-		-	-	
Corporate bonds	13,267,590.51	13,267,590.51	-		-	-	
Bond mutual funds	8,589,777.52	-	-		-	8,589,777.52	
Total debt securities	37,700,277.93	29,110,500.41	-		-	8,589,777.52	
Equity securities: Mutual equity funds	54,173,682.05	-	-		-	54,173,682.05	
Total equity securities	54,173,682.05	=	-		-	54,173,682.05	
Hedge fund	5,680,548.70				-	5,680,548.70	
Total assets at fair value	\$97,554,508.68	\$29,110,500.41	\$ -	\$	-	\$68,444,008.27	

Assets classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

The valuation method for assets measured at the net asset value per share (or its equivalent) is presented on the following table.

				Redemption	
				Frequency	Redemption
		Unfu	nded	(if currently	Notice
	Fair Value	Commi	tments	eligible)	<u>Period</u>
Assets Measured at the NAV					
Bond mutual funds	\$8,589,777.52	\$	-	Daily	None
Mutual equity funds	54,173,682.05		-	Daily	None
Hedge fund	5,680,548.70		-	Quarterly	91 days

The above assets are valued at the net asset value of units held at the end of the period based upon the fair value of the underlying investments.

Pledges Receivable

Pledges receivable at June 30, 2020, are summarized below, net of the allowance for doubtful accounts:

Current pledges	\$1,444,963.51
Pledges due in one to five years	1,998,192.69
Pledges due after five years	1,070,000.00
Subtotal	4,513,156.20

Less allowance for doubtful accounts	36,825.00		
Less discount to net present value	233,731.86		
Total pledges receivable, net	\$4,242,599.34		

Capital Assets

Capital asset activity for the year ended June 30, 2020, was as follows:

	Beginning <u>Balance</u>	<u>Addi</u>	<u>tions</u>	Tran	<u>sfers</u>	Reductions	Ending Balance
Buildings	\$ 59,000.00	\$	_	\$	_	\$ -	\$59,000.00
Equipment	56,601.00		-		_	56,601.00	-
Other assets	12,000.00		-		-	-	12,000.00
Total	127,601.00		-		-	56,601.00	71,000.00
Less accumulated depreciation:							
Buildings	59,000.00		-		-	-	59,000.00
Total	59,000.00		-		-	-	59,000.00
Capital assets, net	\$68,601.00	\$	-	\$	-	\$56,601.00	\$12,000.00

Endowments

The ETSU Foundation's endowment consists of 615 individual funds established for a variety of purposes. Its endowment includes both donor-restricted endowment funds and funds designated by the board of directors to function as endowments. As required by GAAP, net position associated with endowment funds, including funds designated by the board of directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of relevant law — The Board of Directors of the ETSU Foundation has interpreted the Uniform Prudent Management of Institutional Funds Act (the Act) as adopted by Tennessee as requiring preservation of the historical dollar value of the original gift. As a result of this interpretation, the ETSU Foundation classifies as nonexpendable restricted net position (a) the original value of gifts donated to the nonexpendable endowment, (b) the original value of subsequent gifts to the nonexpendable endowment, and (c) accumulations to the nonexpendable endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in nonexpendable restricted net position is classified as expendable restricted net position until those amounts are appropriated for expenditure by the foundation in a manner consistent with the standard of prudence prescribed by the Act. In accordance with the Act, the foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- 1. the duration and preservation of the fund,
- 2. the purposes of the foundation and the endowment fund,
- 3. general economic conditions,
- 4. the possible effect of inflation or deflation,
- 5. the expected total return from income and the appreciation of investments,
- 6. other resources of the foundation, and
- 7. the investment policies of the foundation.

Return objectives and risk parameters — The foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity or for donor-specified periods, as well as board-designated funds. Under this policy, as approved by the board of directors, the endowment assets are invested in a manner that is intended to produce results that, over the long term, will achieve a total return equivalent to or greater than the foundation's financial requirements over the time horizon. The foundation expects its endowment funds, over time, to provide an average rate of return of approximately 7% annually. Actual returns in any given year may vary from this amount.

<u>Strategies employed for achieving objectives</u> – To satisfy its long-term rate-of-return objectives, the foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk restraints.

Spending policy and how the investment objectives relate – The foundation has a policy of appropriating for distribution each year 2% to 4% of the average quarterly balance for the three preceding calendar years, depending on the amount of reserve for each endowment. In establishing this policy, the foundation considered the long-term expected return on its endowment. Accordingly, over the long term, the foundation expects the current spending policy to allow its endowment to grow at an average of 4% annually. This is consistent with the foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return.

At June 30, 2020, net appreciation of \$14,161,759.34 is available to be spent, of which \$8,999,546.71 is included in restricted net position expendable for scholarships and fellowships, \$139,580.85 is included in restricted net position expendable for research, \$1,189,531.80 is included in restricted net position expendable for instructional department uses, and \$3,833,099.98 is included in restricted net position expendable for other purposes.

MEDICAL EDUCATION ASSISTANCE CORPORATION

The Medical Education Assistance Corporation (MEAC) is a legally separate, tax-exempt organization supporting East Tennessee State University. MEAC acts primarily as a physicians' practice group to supplement the resources that are available to the university in support of its medical education programs. The 13-member board of MEAC is self-perpetuating and consists of the department chairs from Quillen College of Medicine, a representative from East Tennessee State University's Office of the President, a representative from the East Tennessee State University Board of Trustees, and three at-large faculty from the Quillen College of Medicine. Although the university does not control the timing or amount of receipts from MEAC, the residual income that MEAC earns is restricted to supporting medical education. Because these restricted resources held by MEAC can only be used by, or for the benefit of, the university, MEAC is considered a component unit of the university and is discretely presented in the university's financial statements.

During the year ended June 30, 2020, MEAC made distributions of \$1,938,526 to or on behalf of ETSU or the ETSU Foundation for both restricted and unrestricted purposes. Complete financial statements for MEAC can be obtained from Russell Lewis, Chief Financial Officer, P.O. Box 699, Mountain Home, TN 37684.

Cash

At June 30, 2020, cash consisted of \$17,691,182 in bank accounts, \$2,600 of petty cash on hand, and \$2,213,138 in the Local Government Investment Pool (LGIP) administered by the State Treasurer.

The LGIP is measured at amortized cost and is part of the State Pooled Investment Fund. The fund's required risk disclosures are presented in the *State of Tennessee Treasurer's Report*. That report is available on the state's website at www.treasury.tn.gov.

Investments

In accordance with GASB Statement 31, Accounting and Financial Reporting for Certain Investments and External Investment Pools, as amended, and GASB Statement 72, Fair Value Measurement and Application, as amended, investments are reported at fair value, including those with a maturity date of one year or less at the time of purchase, unless otherwise noted. The corporation is authorized to invest funds in accordance with its board of directors' policies. The corporation's investments at June 30, 2020, consisted of \$7,485,730 of certificates of deposit reported at cost and \$3,057,060 of U.S. agency obligations reported at fair value. The certificates of deposit and U.S. agency obligations had original maturities greater than three months.

<u>Interest Rate Risk</u> – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of a debt investment. MEAC does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair-value losses arising from increasing interest rates.

At June 30, 2020, MEAC had the following debt investments and maturities:

		Investment Matu	rities (In Years)
<u>Investment Type</u>	Fair Value	Less than 1	<u>1 to 5</u>
U.S. agency obligations	\$3,057,060	\$1,017,420	\$2,039,640
Total debt investments	\$3,057,060	\$1,017,420	\$2,039,640

<u>Credit Risk</u> – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Securities are rated below using the Standard and Poor's rating scale. MEAC has no investment policy limiting its investment choices based on ratings issued by nationally recognized statistical rating organizations.

At June 30, 2020, the corporation's investments were rated as follows:

		<u>Credit Qu</u>	ality Rating
<u>Investment Type</u>	Balance	$\underline{AA+}$	<u>Unrated</u>
LGIP	\$ 2,213,138	\$ -	\$2,213,138
U.S. agency obligations	3,057,060	3,057,060	-

<u>Concentration of Credit Risk</u> – Concentration of credit risk is the risk of loss attributed to the magnitude of the corporation's investment in a single issuer. The corporation places no limit on the amount it may invest in any one issuer.

At June 30, 2020, more than 5% of the corporation's investments were invested in the following single issuers:

<u>Issuer</u>	Percentage of Total Investments
Federal Home Loan Bank (FHLB) obligations	67%
Federal National Mortgage Association (FNMA)	
obligations	33%

Fair Value Measurement

MEAC categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. MEAC has the following recurring fair value measurements as of June 30, 2020:

	June 30, 2020	in A Mark Ider As	d Prices ctive ets for ntical sets vel 1)	Significant Other Observable Inputs (Level 2)	 ervable outs	Measu the Ne	ments red at t Asset (NAV)
Assets by Fair Value Leve	l						
Debt securities							
U.S. agency obligations	\$3,057,060	\$	-	\$3,057,060	\$ -	\$	-
Total debt securities	\$3,057,060	\$	=	\$3,057,060	\$ -	\$	=

The assets classified in Level 2 of the fair value hierarchy are valued using the spread above risk-free yield curve. As the yields for the risk-free yield curve and the spreads for these securities are observable market inputs, the fair values of U.S. government agency debt securities are included in the Level 2 category. Valuations are obtained from a third-party pricing service for investment securities.

Receivables

Receivables at June 30, 2020, included the following:

Patient accounts receivable, net	\$3,558,735
Other receivables	4,691,651
Total	\$8,250,386

Capital Assets

Capital asset activity for the year ended June 30, 2020, was as follows:

Long-term liabilities activity for the year ended June 30, 2020, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Current Portion
Compensated absences Note payable	\$696,839 -	\$ - 4,896,317	\$105,801 -	\$ 591,038 4,896,317	\$118,208 -
Total long-term liabilities	\$696,839	\$4,896,317	\$105,801	\$5,487,355	\$118,208

Note Payable

On April 20, 2020, MEAC received a loan in the amount of \$4,896,317 pursuant to the Paycheck Protection Program under the CARES ACT. This loan is guaranteed by the U.S. Small Business Administration. The note payable, issued by a local bank, matures April 20, 2022, and bears interest at a rate of 1% per annum.

Under the terms of the Paycheck Protection Program, the loan may be forgiven at the end of 24 weeks from receiving the loan proceeds if utilized for qualifying expenses and both the number of employees and rates of compensation are maintained. The loan amount was utilized for qualifying expenses including payroll costs and benefits, rent, and utilities. MEAC will apply for loan forgiveness immediately following the release of final federal guidance.

Revenues

A summary of adjustments and allowances by revenue classification is presented as follows:

		Less	Less	
		Contractual and	Uncollectible	
Revenue	Gross	Other	Debt	Net
Source	Revenue	<u>Adjustments</u>	<u>Adjustments</u>	Revenue
		•	· ·	
Patient revenues	\$80,025,124	\$34,476,349	\$2,535,077	\$43,013,698

Capital Lease Between MEAC and the University

In 2008, MEAC entered into an agreement to lease a clinical education building from the university for 30 years at a rate equivalent to the cost of construction of the building, which was \$2,942,254. The entire lease obligation was paid in 2009 upon the completion of construction. The agreement is currently being treated as a capital lease. Because there is no remaining obligation, no capital lease obligation has been reported by MEAC, and no capital lease receivable has been reported by the university.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Honorable Bill Lee, Governor Members of the General Assembly Dr. Brian Noland, President

We have audited the financial statements of East Tennessee State University, an institution of the State University and Community College System of Tennessee, which is a component unit of the State of Tennessee, and its discretely presented component units as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the university's basic financial statements, and have issued our report thereon dated December 11, 2020. We conducted our audit in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our report includes a reference to other auditors who audited the financial statements of East Tennessee State University Foundation and the Medical Education Assistance Corporation, as described in our report on East Tennessee State University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the university's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the university's internal control. Accordingly, we do not express an opinion on the effectiveness of the university's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, we identified the following deficiency in internal control that we consider to be a material weakness:

• East Tennessee State University did not provide adequate internal controls in three areas.

This deficiency is described in the Finding and Recommendation section of this report.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the university's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

East Tennessee State University's Response to Finding

The university's response to the finding identified in our audit is included in the Finding and Recommendation section of this report. The university's response was not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on it.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Katherine J. Stickel, CPA, CGFM, Director

Division of State Audit December 11, 2020

Math J. Stickel

Finding and Recommendation

East Tennessee State University did not have adequate internal controls in three areas

The university did not design and monitor effective internal controls in three areas. For two of the areas, we found internal control deficiencies related to one of the university's systems that were in violation of university policies or industry-accepted best practices. We also observed another condition where adequate written internal controls were not in place.

Ineffective implementation and operation of internal controls increases the likelihood of errors, data loss, and unauthorized access to university information. Pursuant to Standard 4.40 of the U.S. Government Accountability Office's *Governmental Auditing Standards*, we omitted details from this finding because they are confidential under the provisions of Section 10-7-504(i), *Tennessee Code Annotated*. We provided the university with detailed information regarding the specific conditions we identified, as well as the related criteria, causes, and our specific recommendations for improvement.

Recommendation

Management should ensure that these conditions are remedied by promptly developing and consistently implementing internal controls in these areas. Management should implement effective controls to ensure compliance with applicable requirements; assign staff to be responsible for ongoing monitoring of the risks and mitigating controls; and take action when deficiencies occur.

Management's Comment

We concur with the finding and recommendation.

The three areas indicated in the report have undergone review by management. Internal controls have been developed to address the conditions identified. New procedures have been established to ensure separation of duties as well as to assign responsibility for ongoing monitoring to staff. Annual training of staff will be conducted, and documentation of attendance will be maintained.
