

Upcoming Changes to Student Z: Drives and File Storage

On Monday, December 20th, 2021, Information Technology Services will be conducting maintenance on the student Z: drives. Following the maintenance window, all Z: drive files will be migrated to Microsoft OneDrive storage. This migration allows students to have more file storage space, access their files off-campus, and utilize easier file management when using on-campus resources such as lab computers.

Further details and information can be found in the [Drive Migration support document](#). If you have any questions or concerns about the migration of data, please contact the ITS Help Desk at 423-439-4648 or itshelp@etsu.edu.
