## East Tennessee State University Instructional Development Grant

## Dear Applicant,

This is the official application for the Instructional Development Grant. It is a fill-in form with set space allotted for each piece of information requested. The text boxes are locked at 10pt type, the margins at ½" inch. Please do not alter this form, altered forms will not be considered.

After downloading, save and rename this form with a name that includes that of the primary applicant, for example "Jones IDG Application.pdf". In the "File" tab of Microsoft word, use "Save As" to change the name of the form. It is also recommended that you save the form while you complete it.

Things to consider while using this form:

- All text boxes with a red outline are required information for the application.
- Section 3, for applications with multiple applicants provide the requested information for all applicants.
- Section 4, be sure to list at least 1, and all courses or instructional activities addressed.
- Section 12, the form will not allow a total greater than \$5000.00.
- Section 14, even if your total proposed budget is under \$5000.00, provide the minimum funding request that would make the project feasible.
- Section 15, the letter of endorsement from the Chair, can be inserted into the completed form as 1 PDF or sent as a separate attachment.

Instructional Development Grants provide up to \$5,000 for special projects in which faculty implement and assess innovative methods to enhance student learning at ETSU. The committee weighs teaching innovations more highly than requests for equipment. The deadlines for submitting applications are sent to all faculty each year. Please note that there is only one funding cycle per fiscal year. Selection criteria are as follows:

- 1. Clear rationale for project, including a well-defined set of objectives
- 2. Originality and creativity of the proposal
- 3. Number of students who would benefit from the project
- 4. Applicability of project to courses or departments beyond those in which the project will occur
- 5. Clearly defined protocol for assessing outcomes of the project
- 6. Feasible calendar for implementing and assessing the project, including specific target date for completion

The Instructional Development Committee (IDC) looks favorably on proposals receiving partial funding from the academic department, college or school.

## Please note:

- All full-time, permanent ETSU faculty are eligible to receive Instructional Development Grants.
- The IDC does not award grants to the same individual in two consecutive years.
- All funds awarded must be spent within the specified fiscal year and cannot be carried over to the next fiscal year.
- The IDC does not fund computer monitors, CPUs, or printers.
- The IDC considers faculty stipends a low priority.
- If the proposal includes equipment already available on campus (e.g., a video camera that could be checked out from the library), explain why buying additional equipment is necessary.
- Items purchased with Instructional Development funds become the property of the department when the project terminates.
- Award recipients must submit final reports to the Office of the Provost. Failure to submit the report will result in ineligibility to receive subsequent Instructional Development Grants.

When your application is complete, please send the application and the department Chair's letter of endorsement via email to Chelsea Gilbert gilbertc@etsu.edu, 423-439-8445. Should you have questions about the application process, please contact Dr. Laraine Powers, powersl@etsu.edu.

## East Tennessee State University Instructional Development Grant

This is a fill-in form. In the space provided, answer or address each of the following (1-15). Each fill-in portion is set at Helvetica 10pt type, the margins are set at ½ inch.

\*\*\* ALTERED FORMS WILL NOT BE CONSIDERED\*\*\*

1. Title of Pro	posai:
