Considerations:

- Grant proposals submitted in one fiscal year are not always awarded in the same fiscal year. Therefore direct comparisons should not be made between the number of proposals requested and the number of awards received in a given fiscal year, nor between the amount requested and the amount received. Accurate success rates for colleges within the University are available upon request.
- Some of the awards listed as State-funded also have Federal money as part of
 the total award. For these particular awards, each is specified under State with
 the State's dollar amount; the portion of the amount flowing through the State
 from a Federal agency is included in the lump sum amount listed as "Federal
 flow-through" under the Federal category.
